Hollywood and the Invention of England Jonathan Stubbs 2019-02-21 Drawing on new archival research into Hollywood production history and

detailed analysis of individual films, *Hollywood and the Invention of England* examines the surprising affinity for the English past in Hollywood cinema. Stubbs asks why Hollywood filmmakers have so frequently drawn on images and narratives depicting English history, and why films of this type have resonated with audiences in America. Beginning with an overview of the cultural interaction between American film and English historical culture, the book proceeds to chart the major filmmaking cycles which characterise Hollywood's engagement with the English past from the 1930s to the present, assessing the value of English-themed films in the American film industry while also placing them in a broader historical context.

The Dominion and the Rising Sun John D. Meehan 2004 The Dominion and the Rising Sun is the first major study of Canada's diplomatic arrival in Japan and, by extension, East Asia. It examines the political, economic, and cultural relations forged during this seminal period between the foremost

power in Asia and the young dominion tentatively establishing itself in world affairs. An overview of Canada's initial foray into Pacific affairs, it begins with the opening in 1929 of the Canadian legation in Tokyo - Canada's third such office overseas - and concludes with the outbreak of hostilities in 1941. Primarily a diplomatic history, the book also explores the impact of traders, interest groups, and missionaries on Canadian attitudes toward Japan during the interwar years. More fundamentally, it examines Canada's diplomatic coming of age closely, revealing its important Pacific dimension - a fact overlooked by historians until now - as well as the disjunct between Canada's commitment to peace and its trade with an aggressor. Meehan suggests that Canada's initially benign view of Japan, its reluctance to adopt positions in advance of its Anglo-American allies, and its lucrative Pacific trade led to a credibility gap in its policies towards East Asia. *The Dominion and the Rising Sun* charts Canada's relationship with Japan, and is essential reading for those interested in Canadian history, international relations, and Asia-Pacific studies.

[The Zionist Masquerade](#) J. Renton 2007-10-17 This book offers a new interpretation of a critical chapter in the history of the Zionist-Palestine conflict and the British Empire in the Middle East. It contends that

the Balfour Declaration was one of many British propaganda policies during the World War I that were underpinned by misconceived notions of ethnicity, ethnic power and nationalism.

The Indian Periodical Press and the Production of Nationalist Rhetoric
S. Kamra 2011-10-24

Considers the Indian periodical press as a key forum for the production of nationalist rhetoric. It argues that between the 1870s and 1910, the press was the place in which the notion of 'the public' circulated and where an expansive middle class, and even larger reading audience, was persuaded into believing it had force.

The Making of Modern Liberalism
Alan Ryan 2014-12-07 The Making of Modern Liberalism is a deep and wide-ranging exploration of the origins and nature of liberalism from the Enlightenment through its triumphs and setbacks in the twentieth century and beyond. The book is the fruit of the more than four decades during which Alan Ryan, one of the

world's leading political thinkers, reflected on the past of the liberal tradition—and worried about its future. This is essential reading for anyone interested in political theory or the history of liberalism.

Britain and the Origins of the First World War Zara S. Steiner 2017-04-25 How and why did Britain become involved in the First World War? Taking into account the scholarship of the last twenty-five years, this second edition of Zara S. Steiner's classic study, thoroughly revised with Keith Neilson, explores a subject which is as highly contentious as ever. While retaining the basic argument that Britain went to war in 1914 not as a result of internal pressures but as a response to external events, Steiner and Neilson reject recent arguments that Britain became involved because of fears of an 'invented' German menace, or to defend her Empire. Instead, placing greater emphasis than before on the role of Russia, the authors convincingly argue that Britain entered the war in order to preserve the European balance of power and the nation's favourable position within it. Lucid and comprehensive, Britain and the Origins of the First World War brings together the bureaucratic, diplomatic, economic, strategical and ideological factors that led to Britain's entry into the Great War,

and remains the most complete survey of the pre-war situation.

English Local Prisons, 1860-1900 Sean McConville
2018-10-24 The local prisons of the latter half of the nineteenth century refined systems of punishment so harsh that one judge considered the maximum penalty of two years local imprisonment to be the most severe punishment known to English law: "next only to death". This work examines how private perceptions and concerns became public policy. It also traces the move in English government from the rural and aristocratic to the urban and more democratic. It follows the rise of the powerful elite of the higher civil service, describes some of the forces that attempted to oppose it, and provides a window through which to view the process of state formation.
