Designing and Evaluating Usable Technology in Industrial Research Clare-Marie Karat 2010 This book is about HCI research in an industrial research setting. It is based on the experiences of two researchers at the IBM T. J. Watson Research Center. Over the last two decades, Drs. John and Clare-Marie Karat have conducted HCI research to create innovative usable technology for users across a variety of domains. We begin the book by introducing the reader to the context of industrial research as well as a set of common themes or guidelines to consider in conducting HCI research in practice. Then case study examples of HCI approaches to the design and evaluation of usable solutions for people are presented and discussed in three domain areas: - item Conversational speech technologies, - item Personalization in eCommerce, and - item Security and privacy policy management technologies In each of the case studies, the authors illustrate and discuss examples of HCI approaches to design and evaluation that worked well and those that did not. They discuss what was learned over time about different HCI methods in practice, and changes that were made to the HCI tools used over time. The Karats discuss trade-offs and issues related to time, resources, and money and the value derived from different HCI methods in practice. These decisions are ones that need to be made regularly in the industrial sector. Similarities and differences with the types of decisions made in this regard in academia will be discussed. The authors then use the context of the three case studies in the three research domains to draw insights and conclusions about the themes that were introduced in the beginning of the book. The Karats conclude with their perspective about the future of HCI industrial research. Table of Contents: Introduction: Themes and Structure of the Book / Case Study 1: Conversational Speech Technologies: Automatic Speech Recognition (ASR) / Case Study 2: Personalization in eCommerce / Case Study 3: Security and Privacy Policy Management Technologies / Insights and Conclusions / The Future of Industrial HCI Research

The Ultimate Betrayal Kimberla Lawson Roby 2015-06-09 "Roby's highly engaging prose offers edgy characters and intense drama." - Booklist It's been four years since twenty-eight-year old Alicia Black, daughter of Reverend Curtis Black, divorced her second husband, the most womanizing and corrupt man she has ever known. Since then, Alicia has been dating her first husband, Phillip Sullivan, a wonderfully kind and true man of God whom she'd hurt terribly by cheating on him. Alicia has worked hard to prove herself worthy of his trust once more, and when he asks her to marry him again, she couldn't be happier. But Levi Cunningham, the drug dealer Alicia had an extramarital affair with, has just been released from prison, and he has completely turned his life around for the better. Still head-over-heels in love with Alicia, he will do whatever is necessary to win her back. Remarrying Phillip is the one thing Alicia has wanted for years, but she can't get Levi out of her mind. Alicia and Phillip aren't the only ones in the middle of a crisis. Their best friends, husband and wife Brad and Melanie Richardson, are struggling to keep their marriage together. Workaholic Brad is never home and has begun losing thousands on bad investments. Or so he says. Melanie, who is certain there's more to the story, is determined to get at the truth. Fresh betrayal leads to consequences no one saw coming, and Alicia's relationship with Phillip might not be the only thing that needs saving. But is it already too late? Buried Alive Myra Friedman 2011-04-27 Electrifying, highly acclaimed, and intensely personal, this new and updated version of Myra Friedman's classic biography of Janis Joplin teems with dramatic insights into Joplin's genius and into the chaotic times that catapulted her to fame as the legendary queen of rock. It is a stunning panorama of the turbulent decade when Joplin's was the rallying voice of a generation that lost itself in her music and found itself in her words. From her small hometown of Port Arthur, Texas, to San Francisco's Haight-Ashbury, from the intimate coffeehouses to the supercharged concert halls, from the glitter of worldwide fame to her tragic end in a Hollywood hotel, here is all the fire and anguish of an immortal, immensely talented, and troubled performer

who devoured everything the rock scene had to offer in a fatal attempt to make peace with herself and her era. Yet, in an eloquent introduction recently written by the author, Joplin emerges from her "ugly duckling" childhood as a woman truly ahead of her time, an outrageous rebel, a defiant outcast and artist of incomparable authenticity who, almost in spite of herself, became to so many a symbol of triumph over adversity. This edition also contains an afterword detailing the whereabouts of a large and colorful cast of characters who were part of Joplin's life, as well as "We Remember Janis," a new chapter of poignant and affectionate anecdotes told by friends.

Law: A Very Short Introduction Raymond Wacks 2008-03-27 Law underlies our society - it protects our rights, imposes duties on each of us, and establishes a framework for the conduct of almost every social, political, and economic activity. The punishment of crime, compensation of the injured, and the enforcement of contracts are merely some of the tasks of a modern legal system. It also strives to achieve justice, promote freedom, and protect our security. The result is a system that, while it touches all of our daily lives, is properly understood by only a few, with its impenetrable jargon, obsolete procedures, and interminable stream of Byzantine statutes and judgments of the courts. This clear, jargon-free Very Short Introduction aims to redress that balance, as it introduces the essentials of law and legal systems in a lively, accessible, and stimulating manner. Explaining the main concepts, terms, and processes of the legal system, it focuses on the Western tradition (the common law and the civil law), but also includes discussions of other legal systems, such as customary law and Islamic law. And it looks to the future too, as globalization and rapid advances in technology place increasing strain on our current legal system. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Jesus Out To Sea James Lee Burke 2008-09-18 A collection of evocative short stories from the celebrated author of **THE TIN ROOF BLOWDOWN** and the Dave Robicheaux series. James Lee Burke is in a class of his own for his highly acclaimed, award-winning crime fiction, most notably the Dave Robicheaux series set in Louisiana. Burke paints a vivid picture of 1940s and 1950s Texas and Louisiana, from heartbreaking childhood reminiscences to death on an oil drilling barge and betrayal within a rock 'n' roll band. And as you would expect of a writer who cares passionately about his fellow man as well as the environment, the more contemporary stories deal with the devastation left by a hurricane - the despair of those stranded or left widowed by the disaster. Here is the first collection for ten years of stories by a modern master. Become lost in the melancholy beauty of James Lee Burke's writing in this remarkable assortment of tales.
