Architectural Drafting and Design Alan Jefferis 2016-01-01 ARCHITECTURAL DRAFTING AND DESIGN, Seventh Edition, is the definitive text for beginning, intermediate, or advanced architectural CAD operators. This full-color, comprehensive edition covers the basics of residential design while exploring numerous types of projects that a designer or architect is likely to complete during the design process. The Seventh Edition is up-to-date with content based on the most recent editions of relevant codes, including the 2015 International Residential Code (IRC), the 2015 International Building Code (IBC), the 2015 International Energy Conservation Code (IECC), and the 2012 International Green Construction Code (IgCC). The text opens with information on architectural styles that have dominated the field over the last four centuries, followed by basic design components related to site and structure. Commercial drafting, basic construction materials, common construction methods, and drawings typically

associated with commercial construction are also covered. This bestseller complements informational content with practical, hands-on material, including step-by-step instructions for the design and layout of each type of drawing associated with a complete set of architectural plans--all presented via projects that can be completed using CAD drawing methods. This proven text equips readers with the knowledge and skills needed to complete the drawings that most municipalities require to obtain a building permit for a single-family residence. Business Communication 2009 Effective communication is the foundation of sound management. Regardless of the size of the business we are in - a multinational company, a medium enterprise or a small-scale industry - effective communication skills are always needed for success. This comprehensive book dwells onto all aspects of business communication which helps to attain success in a business. This book is organized in three sections. Section-I (Basics of Communication) details on how messages in business should be conveyed clearly and unambiguously through various models of communication. It further explains that a message when communicated effectively can help in selling the concept, goods, products or services more conveniently and effectively. Section-II (Oral and non-verbal communication) elucidates that besides verbal communication, non-verbal communication such as gestures, postures, dressing and hair style also plays an equal and important role in imparting messages in a corporate environment. Section-III (Written communication) details on the factors which help to enhance the business writing abilities (letters and memos). Besides, the book teaches various other aspects of business communication like how to prepare for an interview, how to conduct a meeting and also how to draft an impressive resume. Primarily intended for the postgraduate students of management, the book is equally beneficial for the business professionals and company owners, to help them learn the traits of effective communication.
