Indecent Exposures Sarah Gordon 2015-10-27 Photographer Eadweard Muybridge (1830–1904), often termed the father of the motion picture, presented his iconic Animal Locomotion series in 1887. Produced under the auspices of the University of Pennsylvania and encompassing thousands of photographs of humans and animals in motion, the series included more than 300 plates of nude men and women engaged in activities such as swinging a baseball bat, playing leapfrog, and performing housework—an astonishing fact given the period's standards of propriety. In the first sustained examination of these nudes and the remarkable success of their production, wide circulation, and reception, Indecent Exposures positions this revolutionary enterprise as central to crucial advancements of the modern era. Muybridge's nudes ushered in new attitudes toward science and progress, including Darwinian ideas about human evolution and hierarchy; quickened debates over the role of photography and scientific investigation in art; and offered innovative perspectives on the human body. This fascinating story is copiously illustrated, and includes many lesser-known photographs published here for the first time.

Catholics on the Barricades Piotr H. Kosicki 2018-01-09 In Poland in the 1940s and '50s, a new kind of Catholicism intended to remake European social and political life—not with guns, but French philosophy This collective intellectual biography examines generations of deeply religious thinkers whose faith drove them into public life, including Karol Wojtyła, future Pope John Paul II, and Tadeusz Mazowiecki, the future prime minister who would dismantle Poland's Communist regime. Seeking to change the way we understand the Catholic Church, World War II, the Cold War, and communism, this study centers on the idea of "revolution." It examines two crucial countries, France and Poland, while challenging conventional wisdom among historians and introducing innovations in periodization, geography, and methodology. Why has much of Eastern Europe gone back down the road of exclusionary nationalism and religious prejudice since the end of the Cold War? Piotr H. Kosicki helps to understand the crises of contemporary Europe by examining the intellectual world of Roman Catholicism in Poland and France between the Church's declaration of war on socialism in 1891 and the demise of Stalinism in 1956.

Commercial Law Applied David E. Robinson 2012-08-01 The principles, maxims and precepts of Commercial Law are eternal, unchanging and unchangeable. They are expressed in the Bible, both in the Old Testament and in the New. The law of commerce -- unchanged for thousands of years -- forms the underlying foundation of all law on this planet; and for governments around the world. It is the law of nations, and of everything that human civilization is built upon. This is why Commercial Law is so powerful. When you operate at the level of Commercial Law, by these precepts, nothing that is of inferior statute can overturn or change it, or abrogate it, or meddle with it. It is the fundamental source of all authority, power and functional reality.

Imagining Black America Michael Wayne 2014-02-28 DIVScientific research has now established that race should be understood as a social construct, not a true biological division of humanity. In *Imagining Black America*, Michael Wayne explores the construction and reconstruction of black America from the arrival of the first Africans in Jamestown in 1619 to Barack Obama's reelection. Races have to be imagined into existence and constantly reimagined as circumstances change, Wayne argues, and as a consequence the boundaries of black America have historically been contested terrain. He discusses the emergence in the nineteenth century—and the erosion, during the past two decades—of the notorious “one-drop rule.” He shows how significant periods of social transformation—emancipation, the Great Migration, the rise of the urban ghetto, and the Civil Rights Movement—raised major questions for black Americans about the defining characteristics of their racial community. And he explores how factors such as class, age, and gender have influenced perceptions of what it means to be black. Wayne also considers how slavery and its legacy have defined freedom in the United States. Black Americans, he argues, because of their deep commitment to the promise of freedom and the ideals articulated by the Founding Fathers, became and remain quintessential Americans—the “incarnation of America,” in the words of the civil rights leader A. Philip Randolph./div

The Negro Motorist Green Book Victor H. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Gauguin's Paradise Remembered Alastair Wright 2010 In 1891, Paul Gauguin (1848–1903) traveled to Tahiti in an effort to live simply and to draw inspiration from what he saw as the island's exotic native culture. Although the artist was disappointed by the rapidly westernizing community he encountered, his works from this period nonetheless celebrate the myth of an untainted Tahitian idyll, a myth he continued to perpetuate upon his return to Paris. He created a travel journal entitled *Noa Noa* (fragrant scent), a largely fictionalized account that recalled his immersion into the spiritual world of the South Seas. To illustrate his text, Gauguin turned for the first time to the woodcut medium, creating a series of ten dark and brooding prints that he intended to publish alongside his journal—a publication that was never realized. The woodcuts crystallized important themes from his work and are the focus of this major new study. *Gauguin's Paradise Remembered* addresses both the artist's representation of Tahiti in the woodcut medium and the impact these works had on his artistic practice. Through its combined sense of immediacy (in the apparent directness of the printing process) and distance (through the

mechanical repetition of motifs), the woodcut offered Gauguin the ideal medium to depict a paradise whose real attraction lay in its remaining always unattainable. With two insightful essays, this book posits that Gauguin's Noa Noa prints allowed him to convey his deeply Symbolist conception of his Tahitian experience while continuing his experiments with reproductive processes and other technical innovations that engaged him at the time.

Daniel Cottier Petra ten-Doesschate Chu 2021-05-25 The story of an innovative designer and farsighted art entrepreneur and the important role he played in the dissemination of 19th-century Aestheticism This book follows the phenomenal rise of Daniel Cottier (1838-91) from an apprentice coach painter in Glasgow to the founder of Cottier & Co., a fine and decorative arts business with branches on three continents. This gifted designer and brilliant art entrepreneur keenly spotted one of the key aspects of late 19th-century bourgeois culture--its focus on family, home, and church--and seized the artistic and commercial opportunities of the building and decorating boom that it brought about. Cottier was a proponent of Aestheticism, an international trend in the history of culture, art, and design from about 1860 to 1900: he understood the era's desire for beauty and realized the economic possibilities of its commoditization. Beyond biography, therefore, this book illuminates a significant event of late 19th-century cultural history-- Aestheticism's cult of beauty meeting with the bourgeoisie's financial ability to possess it.
