Terence McKenna and Ethnopharmacology Peter Fritz Walter 2015-07-12 'Terence McKenna and Ethnopharmacology' (Great Minds Series, Vol. 8) is a study that features one of the most famous 'psychedelic' philosophers of our time. Terence McKenna (1946-2000) has been studying the ontological foundations of shamanism and the ethnopharmacology of spiritual transformation for the past quarter century. An innovative theoretician and spellbinding orator, McKenna emerged as a powerful voice for the psychedelic movement and the emergent societal tendency he calls 'The Archaic Revival,' title of one of his most popular books. Poetically dispensing enlightened social criticism and new theories of the fractal dynamics of time, he unraveled many aspects of the visionary lexicon. As Artist Alex Grey suggests, 'In the twilight of human history, McKenna's prescription for salvation is just so crazy it might work.' In 1993, McKenna wrote in 'This World and its Double: ' It's clearly a crisis of two things: of consciousness and conditioning. These are the two things that the psychedelics attack. We have the technological power, the engineering skills to save our planet, to cure disease, to feed the hungry, to end war. But we lack the intellectual vision, the ability to change our minds. We must decondition ourselves from 10,000 years of bad behavior. And, it's not easy. The books comes with a bonus essay by Peter Fritz Walter, entitled 'The Shamanic Method.'

Chinese Stories for Language Learners Vivian Ling 2021-03-23 The highly anticipated next book in Tuttle's Stories for Language Learners series is here! This book presents 22 classic Chinese proverbs and the traditional tales behind them. The stories are bilingual, with the Chinese and English versions presented on facing pages. Each includes an explanation of how the proverb is used today, cultural notes, vocabulary and discussion questions. Online audio recordings of the tales by native speakers give students a chance to improve their pronunciation and comprehension. Some of the proverbs featured in this collection include: "Painting the Eyes on the Dragon" Based on the story of a famous court painter in 6th century China who painted dragons, this proverb refers to the finishing touches needed to bring a work of art or literature to life. In a discussion, it refers to the final statements used to clinch the argument. "Waiting for Rabbits by a Tree Stump" Based on an ancient folktale about a foolish farmer who sees a rabbit kill itself in front of him by running into a tree stump, then gives up tilling his field to wait for more rabbits by the stump. This saying is applied to people who wait passively for luck to strike again. It also refers to impractical people who stick to one way of doing things only because it has worked for them once in the past. "Pure Water Has No Fish; Perfect People Have No Friends" Many versions of this historical tale exist. The one told here is about a 2nd century AD official sent to govern a far-flung outpost on the Silk Road who is fastidious in applying strict rules and thereby causes the local people to rebel against him. In the professional world, it is used to refer to people who do not like to work with an overly strict supervisor or colleague. Whether being used in a classroom or for self-study, Chinese Stories for Language Learners provides an educational and entertaining way for intermediate Mandarin learners to expand their vocabulary and understanding of the language.

The Travel Diaries of Albert Einstein Albert Einstein 2018-05-29 The first publication of Albert Einstein's travel diary to the Far East and Middle East In the fall of 1922, Albert Einstein, along with his then-wife, Elsa Einstein,

embarked on a five-and-a-half-month voyage to the Far East and Middle East, regions that the renowned physicist had never visited before. Einstein's lengthy itinerary consisted of stops in Hong Kong and Singapore, two brief stays in China, a six-week whirlwind lecture tour of Japan, a twelve-day tour of Palestine, and a three-week visit to Spain. This handsome edition makes available, for the first time, the complete journal that Einstein kept on this momentous journey. The telegraphic-style diary entries--quirky, succinct, and at times irreverent—record Einstein's musings on science, philosophy, art, and politics, as well as his immediate impressions and broader thoughts on such events as his inaugural lecture at the future site of the Hebrew University in Jerusalem, a garden party hosted by the Japanese Empress, an audience with the King of Spain, and meetings with other prominent colleagues and statesmen. Entries also contain passages that reveal Einstein's stereotyping of members of various nations and raise questions about his attitudes on race. This beautiful edition features stunning facsimiles of the diary's pages, accompanied by an English translation, an extensive historical introduction, numerous illustrations, and annotations. Supplementary materials include letters, postcards, speeches, and articles, a map of the voyage, a chronology, a bibliography, and an index. Einstein would go on to keep a journal for all succeeding trips abroad, and this first volume of his travel diaries offers an initial, intimate glimpse into a brilliant mind encountering the great, wide world.

The Many Meanings of Meilan Andrea Wang 2021-08-17 "The little girl I would have been thrilled to encounter Meilan... having found a character who embraces the complexity of being both Chinese and American, I would have been able to echo her words: 'I am not alone.'" —New York Times Book Review by Jean Kwok A family feud before the start of seventh grade propels Meilan from Boston's Chinatown to rural Ohio, where she must tap into her inner strength and sense of justice to make a new place for herself in this resonant debut. Meilan Hua's world is made up of a few key ingredients: her family's beloved matriarch, Nai Nai; the bakery her parents, aunts, and uncles own and run in Boston's Chinatown; and her favorite Chinese fairy tales. After Nai Nai passes, the family has a falling-out that sends Meilan, her parents, and her grieving grandfather on the road in search of a new home. They take a winding path across the country before landing in Redbud, Ohio. Everything in Redbud is the opposite of Chinatown, and Meilan's not quite sure who she is--being renamed at school only makes it worse. She decides she is many Meilans, each inspired by a different Chinese character with the same pronunciation as her name. Sometimes she is Mist, cooling and invisible; other times, she's Basket, carrying her parents' hopes and dreams and her guilt of not living up to them; and occasionally she is bright Blue, the way she feels around her new friend Logan. Meilan keeps her facets separate until an injustice at school shows her the power of bringing her many selves together. The Many Meanings of Meilan, written in stunning prose by Newbery Honor-winning author Andrea Wang, is an exploration of all the things it's possible to grieve, the injustices large and small that make us rage, and the peace that's unlocked when we learn to find home within ourselves.

The Art of War Sun Tzu 2016-05-27 The Art of War is a translation of Sun Tzu's originally written book on battle strategies by author James Clavell. Sun Tzu believed war to be an essential wrongdoing that must be got rid of whenever it can be. The war should be fought fleetingly to reduce economic decline. Sun Tzu harped on the significance of placement in military tactics. The planning to position an army must be dependent on the stipulations in the physical surroundings and the subjective thoughts of various militants in those conditions. He believed that strategy cannot be considered as planning with respect to glancing through a previously decided list. It is better represented by the fact that it needs speedy and suitable reactions to altering situations. Planning gives results in restrained surroundings. But in case of an altering environment, similar plans come in each other's ways and give rise to undesired outcomes. The book has been a profound factor in the workings of Eastern and Western military strategies, business planning, legal thought processes, and more. (The Art of War by Sun Tzu, 9789380914893)

Daodejing Laozi 2008-09-11 'Of ways you may speak, but not the Perennial Way; By names you may name, but not the Perennial Name.' The best-loved of all the classical books of China and the most universally popular, the Daodejing or Classic of the Way and Life-Force is a work that defies definition. It encapsulates the main tenets of Daoism, and upholds a way of being as well as a philosophy and a religion. The dominant image is of the Way, the mysterious path through the whole cosmos modelled on the great Silver River or Milky Way that traverses the heavens. A life-giving stream, the Way gives rise to all things and holds them in her motherly embrace. It enables the individual, and society as a whole, to harmonize the disparate demands of daily life and achieve a more profound level of understanding. This new translation draws on the latest archaeological finds and brings out the word play and poetry of the original. Simple commentary accompanies the text, and the introduction provides further historical and interpretative context. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.
