Cornersmith Alex Elliott-Howery 2015-09-23 When Alex Elliott-Howery and James Grant opened the doors to Cornersmith, their neighbourhood cafe on an unassuming street corner in Sydney's inner west, they wanted the food to represent the sustainable ethos they held to when cooking at home: making everything from scratch using local, in-season produce; avoiding processed foods; and pickling and preserving to reduce waste. But most importantly, they wanted to serve great-tasting, good-for-you food that everyone would love. From day one the locals flocked in, and Cornersmith has since grown to incorporate a picklery, cooking school and trading system where customers can swap home-grown produce for a coffee or a jar of pickles. This book brings together favourite dishes from the award-winning cafe, covering everything from breakfasts, lunches and dinners to desserts, as well as recipes for their most popular pickles, jams, compotes, chutneys, relishes and fermented foods. Cornersmith food is about following the seasons, not the latest fad; it's about opening your eyes to the bounty available in your own neighbourhood and showing you how best to use it.

The Zero-Waste Chef Anne-Marie Bonneau 2021-04-13 A sustainable lifestyle starts in the kitchen with these use-what-you-have, spend-less-money recipes and tips, from the friendly voice behind @ZeroWasteChef. In her decade of living with as little plastic, food waste, and stuff as possible, Anne-Marie Bonneau, who blogs under the moniker Zero-Waste Chef, has learned that "zero-waste" is above all an intention, not a hard-and-fast rule. Because, while one person eliminating all their waste is great, if thousands of people do 20 percent better it will have a much bigger impact on the planet. The good news is you likely already have all the tools you need to begin to create your own change at home, especially in the kitchen. In her debut book, Bonneau gives readers the facts to motivate them to do better, the simple (and usually free) fixes to ease them into wasting less--you can, for example, banish plastic wrap by simply inverting a plate over your leftovers--and, finally, the recipes and strategies to turn them into more sustainable, money-saving cooks. Rescue a loaf from the landfill by making Mexican Hot Chocolate Bread Pudding, or revive some sad greens to make a pesto. Save five bucks (and the plastic tub) at the supermarket with Yes Whey, You Can Make Ricotta Cheese, then use the cheese in a galette and the leftover whey to make sourdough tortillas. With 75 vegan and vegetarian recipes for cooking with scraps, creating fermented staples, and using up all your groceries before they become waste--including end-of-recipe tips on what to do with your ingredients next--Bonneau lays out an attainable vision of a zero-waste kitchen.
