The Cambridge Guide to Pedagogy and Practice in Second Language Teaching Jack C. Richards 2012-01-31 This collection provides a state-of-the-art survey of key issues and approaches in contemporary second language teaching. The Red Shoes John Stewart Wynne 2013-06-19 "I read this so fast I got blisters turning pages. The Red Shoes is so astonishingly good, original, beautiful and amazing... I think The Red Shoes is a great work of art."—Kate Christensen, winner of the PEN/Faulkner Best American Work of Fiction Award for The Great Man In The Red Shoes, narrator John Laith is mourning the untimely death of his partner, Frank, and is trying to recover from that loss. An active participant in a

Twelve Step grief recovery group, he has a loving, supportive network of friends. Yet he feels something is missing, an ability to put his sorrow aside and once again feel the full force of life, its promise of excitement and abandon. An opportunity presents itself in the form of a present given to him—a pair of shiny red shoes—by a handsome eighteen-year-old modern dancer, who failed to make his mark in the city as an artist. When Laith helps him following an assault, the dancer has nothing to offer by way of thanks except his red shoes. Laith now possesses the sparkling red shoes. Or perhaps they possess him—propelling him on a perilous journey through both the affluent and seedy sides of a vividly brought to life Manhattan at the turn of the millennium. An innocent in a sinister underworld, Laith tries to survive his newfound ties to unpredictable and chillingly unforgettable characters. Laith inexplicably cannot escape his fascination with exploring the dark side. Is it because of the terrible magical powers of those red shoes? Or is it because of some hidden desire within himself? A riveting battle between the sacred and the profane is at war inside him—and in the end there comes a shocking moment of realization where he must finally choose between them.

Jazz: The First 100 Years, Enhanced Media Edition Henry Martin 2015-01-01 Appealing to music majors and nonmajors alike, JAZZ: THE FIRST 100 YEARS, ENHANCED MEDIA EDITION, 3e delivers a thorough introduction to jazz as it explores the development of jazz from its nineteenth-century roots in blues and ragtime, through swing and bebop, to fusion and contemporary jazz styles. Completely up to date, the text devotes a full third of its coverage to performers from the 1960s to the present day. It also includes expansive coverage of women in jazz. Biographies, social history, and timelines at the beginning of chapters put music into context—giving students a true feel for the ever-changing sound of jazz. The Comprehensive Review Guide for Health Information Carla Tyson-Howard 2009-10-07 Perfect for preparing for the RHIA and RHIT exams! the Comprehensive Review Guide for Health Information serves as a personal tutor for HIM students to review the major learning competencies that will be tested on the exams. the workbook section, divided by knowledge clusters, contains short answer, fill in the blank, and matching questions to assess the students' understanding of the competency after using the comprehensive review book section and listening to audio recordings. At the end of every knowledge cluster, a multiple choice test simulates the questions on the national RHIA and RHIT Participatory Methodologies to Elevate Children's Voice and Agency Ilene R. Berson 2019-03-01 This volume of the Research in Global Child Advocacy Series explores participatory methodologies and tools that involve children in research. Perspectives on the role of children have transitioned from viewing children as objects of research, to children

as subjects of research, to acknowledgement of children as competent contributors and agents throughout the inquiry process. Researchers continue to explore approaches that honor the capacity of children, drawing on diverse methodologies to elevate children's voices and actively engage them in the production of knowledge. Nonetheless, despite these developments, questions over the extent to which children can be free of adult filters and influence merits sustained scholarly attention. The book includes chapters that critically examine methodological approaches that empower children in the research process. Contributions include empirical or practitioner pieces that operate from an empowerment paradigm and demonstrate the agenic capacity of children to contribute their perspectives and voices to our understanding of childhood and children's lives. The text also features conceptual pieces that challenge existing theoretical frameworks, critique research paradigms, and analyze dilemmas or tensions related to ethics, policy and power relations in the research process.

Still Competition Robert Lawson 2017-11-13 Following the success of his 2016 book *Razama-Snaz! The Listener's Guide to Nazareth*, Robert Lawson returns with this meticulous reviewing of every Cheap Trick album, song by song. In his book, *Still Competition: The Listener's Guide to Cheap Trick*, Lawson outlines the band's significant television appearances, live shows, and more with the attention to detail only a super fan could provide. A dedicated follower, Lawson has assembled this reference guide out of a love of music and a dedication to fellow fans, but he is not without criticism (often humourously so) when the rockers fall short of his high expectations. He shines the spotlight indiscriminately, which makes him all the more credible a witness to the band's lengthy career. Lawson also seeks input from some of the world's greatest Cheap Trick and classic rock fans, who share stories from epic live shows. Fellow classic rock devotees will love this manual on Cheap Trick's highs, lows, and everything in between.

Sound Heritage Jeanice Brooks 2021-12-31 *Sound Heritage* is the first study of music in the historic house museum, featuring contributions from both music and heritage scholars and professionals in a richly interdisciplinary approach to central issues. It examines how music materials can be used to create narratives about past inhabitants and their surroundings - including aspects of social and cultural life beyond the activity of music making itself - and explores how music as sound, material, and practice can be more consistently and engagingly integrated into the curation and interpretation of historic houses. The volume is structured around a selection of thematic chapters and a series of shorter case studies, each focusing on a specific house, object or project. Key themes include: Different types of historic house, including the case of the composer or musician house; what can be learned from museums and galleries about the use of sound and music and what may not transfer to the historic house setting Musical instruments as part of a wider collection;

questions of restoration and public use; and the demands of particular collection types such as sheet music. Musical objects and pieces of music as storytelling components, and the use of music to affectively colour narratives or experiences. This is a pioneering study that will appeal to all those interested in the intersection between Music and Museum and Heritage Studies. It will also be of interest to scholars and researchers of Music History, Popular Music, Performance Studies and Material Culture.

*Excursions in World Music, Seventh Edition* Bruno Nettl 2016-08-05 *Excursions in World Music* is a comprehensive introductory textbook to world music, creating a panoramic experience for students by engaging the many cultures

around the globe and highlighting the sheer diversity to be experienced in the world of music. At the same time, the text illustrates the often profound ways through which a deeper exploration of these many different communities can reveal overlaps, shared horizons, and common concerns in spite of and, because of, this very diversity. The new seventh edition introduces five brand new chapters, including chapters by three new contributors on the Middle East, South Asia, and Korea, as well as a new chapter on Latin America along with a new introduction written by Timothy Rommen. General updates have been made to other chapters, replacing visuals and updating charts/statistics. Excursions in World Music remains a favorite among ethnomusicologists who want students to explore the in-depth knowledge and scholarship that animates regional studies of world music. A companion website is available at no additional charge. For instructors, there is a new test bank and instructor's manual. Numerous student resources are posted, including streamed audio tracks for most of the listening guides, interactive quizzes, flashcards, and an interactive map with pinpoints of interest and activities. Chamber Music James M. Keller 2011 Oxford's highly successful listener's guides--The Symphony, The Concerto, and Choral Masterworks--have been widely praised for their blend of captivating biography, crystal clear musical analysis, and delightful humor. Now James Keller follows these greatly admired volumes with Chamber Music. Approaching the tradition of chamber music with knowledge and passion, Keller here serves as the often opinionated, always genial guide to 192 essential works by 56 composers, providing illuminating essays on what makes each piece distinctive and admirable. Keller spans the history of this intimate genre of music, from key works of the Baroque through the emotionally stirring "golden age" of the Classical and Romantic composers, to modern masterpieces rich in political, psychological, and sometimes comical overtones. For each piece, from Bach through to contemporary figures like George Crumb and Steve Reich, the author includes an astute musical analysis that casual music lovers can easily appreciate yet that more experienced listeners will find enriching. Keller shares the colorful, often surprising stories behind the compositions while revealing the delights of an art form once described by Goethe as the musical equivalent of "thoughtful people conversing."

Life Review In Health and Social Care Jeff Garland 2005-11-08 How can understanding our past help us face the future? The key to gaining awareness of the present and preparing for the future lies in our understanding of the past, yet there is little coverage of this topic in the existing psychology and counselling literature. How can people improve themselves by greater self-knowledge? Jeff and Christina Garland break new ground in making a straightforward presentation of the theory and practice of the everyday process of life review, which is a therapeutic approach for helping clients make sense

of their past, and can be used to help change undesirable behaviour and plan for the future. The theory and structure of the life review process are examined, and clinical examples of how it works in practice are given; this includes interviews both with "narrators" (people engaged in life review) and "listeners" (health and social care professionals). These examples demonstrate how professionals can use life review to help their clients overcome difficulties in their lives and face the future with confidence. Life Review will appeal to trainees and practitioners in occupational, developmental, clinical and health psychology, social work, counselling, psychotherapy and nursing.
