

Loose Confederation Study Guide Answer

Eventually, you will completely discover a additional experience and completion by spending more cash. yet when? realize you assume that you require to acquire those all needs similar to having significantly cash? Why dont you attempt to acquire something basic in the beginning? Thats something that will lead you to understand even more in the region of the globe, experience, some places, bearing in mind history, amusement, and a lot more?

It is your no question own era to put on an act reviewing habit. accompanied by guides you could enjoy now is Loose Confederation Study Guide Answer below.

Open Government Daniel Lathrop 2010-02-08 In a world where web services can make real-time data accessible to anyone, how can the government leverage this openness to improve its operations and increase citizen participation and awareness? Through a collection of essays and case studies, leading visionaries and practitioners both inside and outside of government share their ideas on how to achieve and direct this emerging world of online collaboration, transparency, and participation. Contributions and topics include: Beth Simone Noveck, U.S. Deputy Chief Technology Officer for open government, "The Single Point of Failure" Jerry Brito, senior research fellow at the Mercatus Center at George Mason University, "All Your Data Are Belong to Us: Liberating Government Data" Aaron Swartz, cofounder of reddit.com, OpenLibrary.org, and BoldProgressives.org, "When Is Transparency Useful?" Ellen S. Miller, executive director of the Sunlight Foundation, "Disrupting Washington's Golden Rule" Carl Malamud, founder of Public.Resource.Org, "By the People" Douglas Schuler, president of the Public Sphere Project, "Online Deliberation and Civic Intelligence" Howard Dierking, program manager on Microsoft's MSDN and TechNet Web platform team, "Engineering Good Government" Matthew Burton, Web entrepreneur and former intelligence analyst at the Defense Intelligence Agency, "A Peace Corps for Programmers" Gary D. Bass and Sean Moulton, OMB Watch, "Bringing the Web 2.0 Revolution to Government" Tim O'Reilly, founder and CEO of O'Reilly Media, "Defining Government 2.0: Lessons Learned from the Success of Computer Platforms" Open Government editors: Daniel Lathrop is a former investigative projects reporter with the Seattle Post Intelligencer who's covered politics in Washington state, Iowa, Florida, and Washington D.C. He's a specialist in campaign finance and "computer-assisted reporting" -- the practice of using data analysis to report the news. Laurel Ruma is the Gov 2.0 Evangelist at O'Reilly Media. She is also co-chair for the Gov 2.0 Expo.

The Rise And Fall of British Naval Mastery Paul Kennedy 2017-01-26 Paul Kennedy's classic naval history, now updated with a new introduction by the author This acclaimed book traces Britain's rise and fall as a sea power from the Tudors to the present day. Challenging the traditional view that the British are natural 'sons of the waves', he suggests instead that the country's fortunes as a significant maritime force have always been bound up with its economic growth. In doing so, he contributes significantly to the centuries-long debate between 'continental' and 'maritime' schools of strategy over Britain's policy in times of war. Setting British naval history within a framework of national, international, economic, political and strategic considerations, he offers a fresh approach to one of the central questions in British history. A new introduction extends his analysis into the twenty-first century and reflects on current American and Chinese ambitions for naval mastery. 'Excellent and stimulating' Correlli Barnett 'The first scholar to have set the sweep of British Naval history against the background of economic history' Michael Howard, Sunday Times 'By far the best study that has ever been done on the subject ... a sparkling and apt quotation on practically every page' Daniel A. Baugh, International History Review 'The best single-volume study of Britain and her naval past now available to us' Jon Sumida, Journal of Modern History

Mobility and Locative Media Adriana de Souza e Silva 2014-08-07 Mobilities has become an important framework to understand and analyze contemporary social, spatial, economic and political practices. Especially as mobile media become seamlessly integrated into transportation networks, navigating urban spaces, and connecting with social networks while on the move, researchers need new approaches and methods to bring together mobilities with mobile communication and locative media. Mobile communication scholars have focused on cell phones, often ignoring broader connections to urban spaces, geography, and locational media. As a result, they emphasized virtual mobility and personalized communication as a way of disconnecting from place, location and publics. The growing pervasiveness of location-aware technology urges us to rethink the

intersection among location, mobile technologies and mobility. Few studies have addressed the many transformations taking place in mobile sociality and in urban spatial processes through the appropriation of these technologies. This edited collection will address this gap by exploring the intersection of mobility, mobile communication, and locative media, as well as the implications of this for adjacent fields such as mobile art, mobile gaming, architecture, design, and urban planning." Chapter 12 of this book is available for free in PDF format as Open Access at www.tandfebooks.com. It has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 3.0 license.

The Dawn of Everything David Graeber 2021-11-09 INSTANT NEW YORK TIMES BESTSELLER A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. **The Dawn of Everything** fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision, and a faith in the power of direct action. Includes Black-and-White Illustrations

Washington's Farewell Address to the People of the United States George Washington 2012-01 Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

The Federalist Papers Alexander Hamilton 2009-04-28 This authoritative edition of the complete texts of the Federalist Papers, the Articles of Confederation, the U.S. Constitution, and the Amendments to the U.S. Constitution features supporting essays in which leading scholars provide historical context and analysis. An introduction by Ian Shapiro offers an overview of the publication of the Federalist Papers and their importance. In three additional essays, John Dunn explores the composition of the Federalist Papers and the conflicting agendas of its authors; Eileen Hunt Botting explains how early advocates of women's rights, most prominently Mercy Otis Warren, Judith Sargent Murray, and Charles Brockden Brown, responded to the Federalist-Antifederalist debates; and Donald Horowitz discusses the Federalist Papers from the perspective of recent experiments with democracy and constitution-making around the world. These essays both illuminate the original texts and encourage active engagement with them.

The World Federalist Bicentennial Reader and Study Guide 1991

The Carbon Club Marian Wilkinson 2020-09-01 As the climate crisis threatens more extreme bushfire seasons, droughts and floods, many Australians are demanding their leaders answer the question: 'Why didn't you do something?' The Carbon Club reveals the truth behind Australia's two decades of climate inaction. It's the story of how a loose confederation of influential climate-science sceptics, politicians and business leaders sought to control Australia's response to the climate crisis. They shared a fear that dealing with climate change would undermine the nation's wealth, jobs and competitive advantage - and the power of the carbon club. Central to their strategy was an international campaign to undermine climate science and the urgency of the climate crisis. The more the climate science was questioned, the more politicians lost the imperative to act. The sustained success of the carbon club over two decades explains why Australian governments failed to deal with the challenge of climate change. But at what cost to us and the next generation? One of Australia's most respected investigative journalists, Marian Wilkinson has tracked the rise and rise of Australia's carbon club in brilliant detail, with extraordinary access to key players on all sides. The result is a book that is both essential and disturbing reading.

[Learn about the United States](#) U. s. Department of Homeland Security 2009 "Learn About the United States" is intended to help permanent residents gain a deeper understanding of U.S. history and government as they

prepare to become citizens. The product presents 96 short lessons, based on the sample questions from which the civics portion of the naturalization test is drawn. An audio CD that allows students to listen to the questions, answers, and civics lessons read aloud is also included. For immigrants preparing to naturalize, the chance to learn more about the history and government of the United States will make their journey toward citizenship a more meaningful one.

American Government Glen Krutz 2016-07-14 "Published by OpenStax College, American Government is designed to meet the scope and sequence requirements of the single-semester American Government course. This title includes innovative features designed to enhance student learning, including Insider Perspective features and a Get Connected module that shows students how they can get engaged in the political process. The book provides an important opportunity for students to learn the core concepts of American Government and understand how those concepts apply to their lives and the world around them. Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project."--BC Campus website.

NIV, Quest Study Bible, eBook Christianity Today Intl., 2011-12-20 Find answers to over 7,000 questions about the Bible. Get answers to the Bible questions you have... and questions you haven't yet pondered! The NIV Quest Study Bible features over 7,000 notes written in an engaging question and answer format that give insight into the common, uncommon, and sometimes perplexing passages from the Bible. You will have the opportunity to consider questions like "Why did God send angels to Jacob?," "What prevents God from hearing our prayers?," and "Why does God test us?" as you explore God's Word using the many study helps. The original Quest Study Bible was conceived in 1989 when two publishing companies, Zondervan and Christianity Today International, worked together to develop a Bible that would answer the challenging questions that arose as people read Scripture. Focus groups around the United States evaluated the usefulness of potential study Bible features and helped select the features that would be included in this Bible. Then, more than 1,000 people received passages of Scripture and were asked, "What questions do you have about this portion of the Bible?" Their responses helped determine what kinds of questions the notes would answer, helping to create a resource that answers the questions that real people have asked about the Bible. Notes have been updated in subsequent releases to ensure that this Bible stays relevant and current to modern readers. Features: Complete text of the accurate, readable, and clear New International Version (NIV) Over 7,000 insightful notes arranged in a unique question and answer format Nearly 350 articles investigate the most asked questions about the Bible Book introductions that answer questions about each book, such as "Who wrote it?," "Why?," and "What should I look for?" Article index and expanded subject index Single-column Scripture text arranged in a modern, two-color page design Over 150 charts, timelines, and maps A reading plan with three distinct tracks to follow NIV Dictionary-Concordance 16-page full-color map section

Constitution Study Guide Christine Compston 2001 A History of the United States' well-told story and expanded program are designed to address your changing curriculum and classroom needs. Author Daniel Boorstin•"Librarian of Congress Emeritus, and winner of the Bancroft, Parkman, and Pulitzer prizes•e"tells the story of American history in an engaging style that reaches today's students.

Landscape Turned Red Stephen W. Sears 2015-02-03 "The best account of the Battle of Antietam" from the award-winning, national bestselling author of Gettysburg and Chancellorsville (The New York Times Book Review). The Civil War battle waged on September 17, 1862, at Antietam Creek, Maryland, was one of the bloodiest in the nation's history: in this single day, the war claimed nearly 23,000 casualties. In Landscape Turned Red, the renowned historian Stephen Sears draws on a remarkable cache of diaries, dispatches, and letters to recreate the vivid drama of Antietam as experienced not only by its leaders but also by its soldiers, both Union and Confederate. Combining brilliant military analysis with narrative history of enormous power, Landscape Turned Red is the definitive work on this climactic and bitter struggle. "A modern classic."—The Chicago Tribune "No other book so vividly depicts that battle, the campaign that preceded it, and the dramatic political events that followed."—The Washington Post Book World "Authoritative and graceful . . . a first-rate work

of history.”—Newsweek

The American Pageant Thomas Andrew Bailey 1998 USAs historie indtil 1996

From Saladin to the Mongols R. Stephen Humphreys 1977-01-01 Upon the death of Saladin in 1193, his vast empire, stretching from the Yemen to the upper reaches of the Tigris, fell into the hands of his Ayyubid kinsmen. These latter parceled his domains into a number of autonomous principalities, though some common identity was maintained by linking these petty states into a loose confederation, in which each local prince owed allegiance to the senior member of the Ayyubid house. Such an arrangement was, of course, highly unstable, and at first glance Ayyubid history appears to be no more than a succession of unedifying squabbles among countless rival princelings, until at last the family's hegemony was extinguished by two events: 1) a coup d'état staged by the palace guard in Egypt in 1250, and 2) the Mongol occupation of Syria, brief but destructive, in 1260. But appearances to the contrary, the obscure quarrels of Saladin's heirs embodied a political revolution of highest importance in Syro-Egyptian history. The seven decades of Ayyubid rule mark the slow and sometimes violent emergence of a new administrative relationship between Egypt and Syria, one in which Syria was subjected to close centralized control from Cairo for the unprecedented period of 250 years. These years saw also the gradual decay of a form of government--the family confederation--which had been the most characteristic political structure of Western Iran and the Fertile Crescent for three centuries, and its replacement by a unitary autocracy. Finally, it was under the Ayyubids that the army ceased to be an arm of the state and became, in effect, the state itself. When these internal developments are seen in the broader context of world history as it affected Syria during the first half of the thirteenth century--Italian commercial expansion, the Crusades of Frederick II and St. Louis, the Mongol expansion--then the great intrinsic interest of Ayyubid history becomes apparent. Professor Humphreys has developed these themes through close examination of the political fortunes of the Ayyubid princes of Damascus. For Damascus, though seldom the capital of the Ayyubid confederation, was, nevertheless, its hinge. The struggle for regional autonomy vs. centralization, for Syrian independence vs. Egyptian domination, was fought out at Damascus, and the city was compelled to stand no less than eleven sieges during the sixty-seven years of Ayyubid rule. Almost every political process of real significance either originated with the rulers of Damascus or was closely reflected in their policy and behavior. The book is cast in the form of a narrative, describing a structure of politics which was in no way fixed and static, but dynamic and constantly evolving. Indeed, the book does not so much concern the doings of a group of rather obscure princes as it does the values and attitudes which underlay and shaped their behavior. The point of the narrative is precisely to show what these values were, how they were expressed in real life, and how they changed into quite new values in the course of time.

Study Guide, the Challenge of Democracy, Seventh Edition Haroon ar Rashid Khan 2002

A People's History of the United States Howard Zinn 2003-02-04 Since its original landmark publication in 1980, A People's History of the United States has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the, workplace. Known for its lively, clear prose as well as its scholarly research, A People's History is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, A People's History of the United States, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new after, word by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

MATERIAL BACKGROUND TO THE VIJAYANAGARA EMPIRE (A Study with Special reference To Southern A? ndhrade? s?a From A.D. 1300 To 1500) Dr. M. Bosu Babu 2018-11-26 The book deals with the political and administration patterns that prevailed in Andhrade?sa before the emergence of British rule. The conventional pattern of studying Medieval History in the past was glorifying the personalities of some kings and emperors. But the present study has been taken up to discover the factual realities that are considered in the form of socio-economic, political and administrative patterns as the essentials for the historical study. This book is an impressive and wide ranging one, examining the political order, material frame works and complex history of Vijayanagar Empire with a particular focus on Andhra Pradesh

The Fourth Industrial Revolution Klaus Schwab 2017-01-03 The founder and executive chairman of the World Economic Forum on how the impending technological revolution will change our lives We are on the brink of the Fourth Industrial Revolution. And this one will be unlike any other in human history. Characterized by new technologies fusing the physical, digital and biological worlds, the Fourth Industrial Revolution will impact all disciplines, economies and industries - and it will do so at an unprecedented rate. World Economic Forum data predicts that by 2025 we will see: commercial use of nanomaterials 200 times stronger than steel and a million

times thinner than human hair; the first transplant of a 3D-printed liver; 10% of all cars on US roads being driverless; and much more besides. In *The Fourth Industrial Revolution*, Schwab outlines the key technologies driving this revolution, discusses the major impacts on governments, businesses, civil society and individuals, and offers bold ideas for what can be done to shape a better future for all.

Handbook for the Study of the Historical Jesus (4 Vols) Tom Holmén 2010-12-01 With ca. 120 articles from ca. 100 writers from ca. 20 countries, this publication forms a repository where students and scholars can readily get to know their way around the breadth of recent research on the historical Jesus.

Singapore and Switzerland Yvonne Guo 2016-07-22 The cases of Singapore and Switzerland present a fascinating puzzle: how have two small states achieved similar levels of success through divergent pathways? Are both approaches equally sustainable, and what lessons do they hold for each other? While Singapore is the archetypal developmental state, whose success can be attributed to strong political leadership and long-term planning, Switzerland's success is a more organic process, due to the propitious convergence of strong industries and a resilient citizenry. Yet throughout the course of their development, both countries have had to deal with the dual challenges of culturally heterogeneous populations and challenging regional contexts. Edited by Yvonne Guo and Jun Jie Woo, with forewords from Ambassadors Thomas Kupfer and Tommy Koh, *Singapore and Switzerland: Secrets to Small State Success* features contributions from distinguished scholars and policymakers who explore the dynamics of two small states which have topped international rankings in a dazzling array of policy areas, from economic competitiveness to education to governance, but whose pathways to success could not be more different. Contents: Foreword by Ambassador Thomas Kupfer Foreword by Ambassador Tommy Koh Preface Introduction and Background: The Trajectories of History, Politics and Economics Public Administration in Singapore and Switzerland (Yvonne Guo and Andreas Ladner) Neutrality, Balancing or Engagement? Comparing the Singaporean and Swiss Approaches in Small-State Diplomacy (Yvonne Guo and J J Woo) Trade Policy: The Status Quo and The Quo Vadis of Trade Liberalisation (Michael Anliker) Small States as Banking Powerhouses: Financial Sector Policy in Singapore and Switzerland (Yvonne Guo and J J Woo) Land Transport Policy: Urban Infrastructure in Singapore and Switzerland (Bruno Wildermuth) SMEs: Challenges, Potential for Mutual Learning and Implications for Policymakers (Manuel Baeuml) Recent Trends in First-Class World Competitiveness: Singapore and Switzerland in Global Entrepreneurship Rankings (Philippe Régnier and Pascal Wild) Singapore and Switzerland: Success Stories in Education (Suzanne Hraba-Renevey and Yvonne Guo) United in Diversity? Managing Multiculturalism in Singapore and Switzerland (Yvonne Guo) Migration Policies: Lessons from the Singaporean and Swiss Experiences (Hui Weng Tat and Cindy Helfer) Power Resources and Income Inequality in Singapore and Switzerland (Mehmet Kerem Çoban) Conclusion About the Authors Index Reviews of the Book Readership: Policymakers; undergraduates and postgraduates in political science, economics, and international affairs. American Government: Institutions and Policies James Q. Wilson 2014-01-01 Acclaimed for the scholarship of its prominent authors and the clarity of its narrative, *AMERICAN GOVERNMENT: INSTITUTIONS AND POLICIES* sets the standard for public policy coverage while maintaining focus on three fundamental topics: the importance of institutions of American government; the historical development of governmental procedures, actors, and policies; and who governs in the United States and to what ends. Student involvement in the material is bolstered by proven pedagogical features such as learning objectives framing each chapter, Constitutional Connections relating current issues to founding principles, and How Things Work boxes that illustrate important concepts. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Notes on the State of Virginia Thomas Jefferson 1825

The Cabinet Lindsay M. Chervinsky 2020-04-07 The US Constitution never established a presidential cabinet—the delegates to the Constitutional Convention explicitly rejected the idea. So how did George Washington create one of the most powerful bodies in the federal government? On November 26, 1791, George Washington convened his department secretaries—Alexander Hamilton, Thomas Jefferson, Henry Knox, and Edmund Randolph—for the first cabinet meeting. Why did he wait two and a half years into his presidency to call his cabinet? Because the US Constitution did not create or provide for such a body. Washington was on his own. Faced with diplomatic crises, domestic insurrections, and constitutional challenges—and finding congressional help lacking—Washington decided he needed a group of advisors he could turn to. He modeled his new cabinet on the councils of war he had led as commander of the Continental Army. In the early days, the cabinet served at the president's pleasure. Washington tinkered with its structure throughout his administration, at times calling regular meetings, at other times preferring written advice and individual discussions. Lindsay M. Chervinsky reveals the far-reaching consequences of Washington's choice. The tensions in the cabinet between Hamilton and Jefferson heightened partisanship and contributed to the development of the first party system. And as Washington faced an increasingly recalcitrant Congress, he came to treat the cabinet as a private advisory body

to summon as needed, greatly expanding the role of the president and the executive branch.

American Government: Institutions and Policies, Brief Version James Q. Wilson 2016-12-19 This popular brief text for the one-semester or one-quarter American Government course maintains the framework of the Wilson, Dilulio, Bose, and Levendusky comprehensive text, emphasizing the historical development of the American political system, who governs, and to what ends. The 13th edition of AMERICAN GOVERNMENT: INSTITUTIONS AND POLICIES, BRIEF VERSION, offers coverage of the 2014 and 2016 campaigns and elections; budget battles and the sequestration of funds; ongoing debates about immigration, gay marriage, and other key issues in American politics; and foreign-policy decisions on Afghanistan, the Middle East, and North Korea. We have also reworked each chapter to focus on a clear set of learning objectives to guide students through the material. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Alexander Hamilton's Famous Report on Manufactures United States. Department of the Treasury 1892

The United States Constitution Study Guide Academic Solutions, Inc 2003-06-01 On July 4, 1776, the United States declared itself a free and independent nation. Two weeks later, the Continental Congress began working on the Articles of Confederation to create a government for the new country. By 1787 that government was found to be ineffective. A convention was called to amend the articles. The delegates quickly realized amendment wasn't enough, a new type of government had to be created. The result of their deliberations was the Constitution of the United States, ratified in 1789. The First Congress proposed ten amendments, known as the Bill of Rights. Over the next 210 years there were seventeen more amendments. This book will help you to read, study and understand the founding documents of our nation as well as the rights and responsibilities of our government and citizens.

We Have Not a Government George William Van Cleve 2019-04-05 In 1783, as the Revolutionary War came to a close, Alexander Hamilton resigned in disgust from the Continental Congress after it refused to consider a fundamental reform of the Articles of Confederation. Just four years later, that same government collapsed, and Congress grudgingly agreed to support the 1787 Philadelphia Constitutional Convention, which altered the Articles beyond recognition. What occurred during this remarkably brief interval to cause the Confederation to lose public confidence and inspire Americans to replace it with a dramatically more flexible and powerful government? We Have Not a Government is the story of this contentious moment in American history. In George William Van Cleve's book, we encounter a sharply divided America. The Confederation faced massive war debts with virtually no authority to compel its members to pay them. It experienced punishing trade restrictions and strong resistance to American territorial expansion from powerful European governments. Bitter sectional divisions that deadlocked the Continental Congress arose from exploding western settlement. And a deep, long-lasting recession led to sharp controversies and social unrest across the country amid roiling debates over greatly increased taxes, debt relief, and paper money. Van Cleve shows how these remarkable stresses transformed the Confederation into a stalemate government and eventually led previously conflicting states, sections, and interest groups to advocate for a union powerful enough to govern a continental empire. Touching on the stories of a wide-ranging cast of characters—including John Adams, Patrick Henry, Daniel Shays, George Washington, and Thayendanegea—Van Cleve makes clear that it was the Confederation's failures that created a political crisis and led to the 1787 Constitution. Clearly argued and superbly written, We Have Not a Government is a must-read history of this crucial period in our nation's early life.

The Left Hand Of Darkness Ursula K. Le Guin 2012-12-06 Winter is an Earth-like planet with two major differences: conditions are semi arctic even at the warmest time of the year, and the inhabitants are all of the same sex. Tucked away in a remote corner of the universe, they have no knowledge of space travel or of life beyond their own world. And when a strange envoy from space brings news of a vast coalition of planets which they are invited to join, he is met with fear, mistrust and disbelief . . . 'The Left Hand of Darkness' is a groundbreaking work of feminist science fiction, an imaginative masterpiece which poses challenging questions about sexuality, sexism and the organisation of society.

The Age of Surveillance Capitalism Shoshana Zuboff 2019-01-31 THE TOP 10 SUNDAY TIMES BESTSELLER Shortlisted for the FT Business Book of the Year Award 2019 'Easily the most important book to be published this century. I find it hard to take any young activist seriously who hasn't at least familiarised themselves with Zuboff's central ideas.' - Zadie Smith, The Guardian The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called "surveillance capitalism," and the quest by powerful corporations to predict and control us. The heady optimism of the Internet's early days is gone.

Technologies that were meant to liberate us have deepened inequality and stoked divisions. Tech companies gather our information online and sell it to the highest bidder, whether government or retailer. Profits now depend not only on predicting our behaviour but modifying it too. How will this fusion of capitalism and the digital shape our values and define our future? Shoshana Zuboff shows that we are at a crossroads. We still have the power to decide what kind of world we want to live in, and what we decide now will shape the rest of the century. Our choices: allow technology to enrich the few and impoverish the many, or harness it and distribute its benefits. The Age of Surveillance Capitalism is a deeply-reasoned examination of the threat of unprecedented power free from democratic oversight. As it explores this new capitalism's impact on society, politics, business, and technology, it exposes the struggles that will decide both the next chapter of capitalism and the meaning of information civilization. Most critically, it shows how we can protect ourselves and our communities and ensure we are the masters of the digital rather than its slaves.

Keeping the Republic Christine Barbour 2018-11-23 Keeping the Republic gives students the power to examine the narrative of what's going on in American politics, distinguish fact from fiction and balance from bias, and influence the message through informed citizenship. Keeping the Republic draws students into the study of American politics, showing them how to think critically about "who gets what, and how" while exploring the twin themes of power and citizenship. Students are pushed to consider how and why institutions and rules determine who wins and who loses in American politics, and to be savvy consumers of political information. The thoroughly updated Eighth Edition considers how a major component of power is who controls the information, how it is assembled into narratives, and whether we come to recognize fact from fiction. Citizens now have unprecedented access to power – the ability to create and share their own narratives – while simultaneously being even more vulnerable to those trying to shape their views. The political landscape of today gives us new ways to keep the republic, and some high-tech ways to lose it. Throughout the text and its features, authors Christine Barbour and Gerald Wright show students how to effectively apply the critical thinking skills they develop to the political information they encounter every day. Students are challenged to deconstruct prevailing narratives and effectively harness the political power of the information age for themselves. Up-to-date with 2018 election results and analysis, as well as the impact of recent Supreme Court rulings, shifting demographics, and emerging and continuing social movements, Keeping the Republic, Eighth Edition is a much-needed resource to help students make sense of politics in America today. Carefully condensed from the full version by authors Christine Barbour and Gerald Wright, Keeping the Republic, Brief Edition gives your students all the continuity and crucial content, in a more concise, value-oriented package.
