Canada : Images D'une Société Post/nationale Nordic Association for Canadian Studies. International Conference 2009 Has Canada moved beyond the nation state into the world of the post-national? To what extent have fixed notions of Canadian nationhood been replaced by a more global, decentralized sense of identification? Is nationhood (or post-nationhood) best expressed by statelessness and exile or by belonging? Or can Canadian national identity in fact fruitfully coexist with the post-national consciousness? These are some of the issues covered by this volume, issues seen from a range of perspectives - literary, cultural, political and economic. In the literary sphere the national/post-national debate is explored both through canonical writers, such as L. M. Montgomery, Stephen Leacock, and Marie-Claire Blais, and through recent First Nations, Asian-Canadian, African-Canadian, Ukrainian-Canadian and Quebec writing. The political and economic range is equally diverse, covering such topics as immigration policy, multiculturalism, Canadian-American relations, tourist imaginings of the Canadian North, the Canadian city, and Quebec nationalism. The book brings together 27 original articles from international scholars and creative writers, offering both European and Canadian perspectives. Six articles in French focus specifically on the francophone sphere.

Don't Call Us Dead Danez Smith 2018-01-18 *WINNER OF THE FORWARD PRIZE FOR BEST COLLECTION 2018* *A Finalist for the National Book Award for Poetry 2017* *A Financial Times and Telegraph Book of the Year 2018* '[Smith's] poems are enriched to the point of volatility, but they pay out, often, in sudden joy' The New Yorker Award-winning poet Danez Smith is a groundbreaking force, celebrated for deft lyrics, urgent subjects, and performative power. Don't Call Us Dead opens with a heartrending sequence that imagines an afterlife for black men shot by police, a place where suspicion, violence, and grief are forgotten and replaced with the safety, love and longevity they deserved here on earth. Smith turns then to desire, mortality – the dangers experienced in skin and body and blood – and an HIV-positive diagnosis. 'Some of us are killed / in pieces,' Smith writes, 'some of us all at once.' Don't Call Us Dead is an astonishing and ambitious collection, one that confronts, praises, and rebukes an America where every day is too often a funeral and not often enough a miracle.

Swingin' the Dream Lewis A. Erenberg 1999-09-08 During the 1930s, swing bands combined jazz and popular music to create large-scale dreams for the Depression generation, capturing the imagination of America's young people, music critics, and the music business. Swingin' the Dream explores that world, looking at the racial mixing-up and musical swinging-out that shook the nation and has kept people dancing ever since. "Swingin' the Dream is an intelligent, provocative study of

the big band era, chiefly during its golden hours in the 1930s; not merely does Lewis A. Erenberg give the music its full due, but he places it in a larger context and makes, for the most part, a plausible case for its importance."—Jonathan Yardley, *Washington Post Book World* "An absorbing read for fans and an insightful view of the impact of an important homegrown art form."—*Publishers Weekly* "[A] fascinating celebration of the decade or so in which American popular music basked in the sunlight of a seemingly endless high noon."—Tony Russell, *Times Literary Supplement*

Fever Within Bernard L. Herman 2016-02-29 Ronald Lockett (1965–1998) stands out among southern artists in the late twentieth century. Raised in the African American industrial city of Bessemer, Alabama, Lockett explored a range of recurring themes through his art: faith, the endless cycle of life, environmental degradation, historical events, the sweetness of idealized love, mourning, human emotion, and personal struggle. By the time Lockett died at age thirty-two, he had created an estimated four hundred works that document an extraordinary artistic evolution. This book offers the first in-depth critical treatment of Lockett's art, alongside sixty full-color plates of the artist's paintings and assemblages, shedding light on Lockett's career and work. By placing Lockett at its center, contributors contextualize what might be best understood as the Birmingham-Bessemer School of art, which includes Thornton Dial, Joe Minter, and Lonnie Holley, and its turbulent social, economic, and personal contexts. While broadening our understanding of southern contemporary art, *Fever Within* uncovers how one artist's work has become emblematic of the frustrated, yearning, unredeemed promises, and family and community resilience expressed by a generation of African American artists at the close of the twentieth century. Contributors include Paul Arnett, Sharon Patricia Holland, Katherine L. Jentleson, Thomas J. Lax, and Colin Rhodes.

African, American David Peterson del Mar 2017-06-15 Africa has long gripped the American imagination. From the Edenic wilderness of Edgar Rice Burroughs's Tarzan novels to the 'black Zion' of Garvey's Back-to-Africa movement, all manner of Americans - whether white or black, male or female - have come to see Africa as an idealized stage on which they can fashion new, more authentic selves. In this remarkable, panoramic work, David Peterson del Mar explores the ways in which American fantasies of Africa have evolved over time, as well as the role of Africans themselves in subverting American attitudes to their continent. Spanning seven decades, from the post-war period to the present day, and encompassing sources ranging from literature, film and music to accounts by missionaries, aid workers and travel writers, *African, American* is a fascinating deconstruction of 'Africa' as it exists in the American mindset.

Love of Freedom Catherine Adams 2010-02-01 They baked New England's Thanksgiving pies, preached their faith to crowds of worshippers, spied for the patriots during the Revolution, wrote that human bondage was a sin, and demanded reparations for slavery. Black women in colonial and revolutionary New England sought not only legal emancipation from slavery but defined freedom more broadly to include spiritual, familial, and economic dimensions. Hidden behind the banner of achieving freedom was the assumption that freedom meant affirming black manhood

The struggle for freedom in New England was different for men than for women. Black men in colonial and revolutionary New England were struggling for freedom from slavery and for the right to patriarchal control of their own families. Women had more complicated desires, seeking protection and support in a male headed household while also wanting personal liberty. Eventually women who were former slaves began to fight for dignity and respect for womanhood and access to schooling for black children.

If He Hollers Let Him Go Chester Himes 2010-12-02 Robert Jones is a crew leader in a naval shipyard in Los Angeles in the 1940s. He should have a lot going for him, being educated, with a steady job and a steady relationship. But in the four days covered in this novel, the impossibility of life as a black man in a white world is made devastatingly clear. Jones is surrounded by prejudice, suspicion and paranoia, and his daily experiences influence his thoughts, dreams and behaviour. Immediately recognised as a masterful expose of racism in everyday life, If He Hollers Let Him Go is Chester Himes' first book, originally published in 1945.

Queens and Revolutionaries Pascale Gaitet 2003 Queens and Revolutionaries proposes new readings of Genet that focus on the two areas that Saint Genet does not adequately address: sex and politics. The book first demonstrates how Sartre's emphasis on a range of binary oppositions fails to do justice to the complex interplay of agency and determinism in Genet's novels of the 1940s. Using contemporary feminist and gender theory to elucidate the fluctuations, oscillations, and reversals in Genet's representations of cross-dressing and homosexuality, the readings show how these representations in turn reveal those theories limitations. The second half of the book turns to lesser known work dating from the late 1960s onward, and to 'Prisoner of Love', in order to contest Sartre's insistence on the non-political nature of Genet's work. It examines Genet's texts on the Black Panthers and the Palestinians, highlighting his political engagement after May 1968. It also traces the continuities from his earlier work, and shows how revolutionary aesthetics, theatricality, and performance are now increasingly reconceptualised as explicitly political acts.

The American Dream Robert H. Fossum 1981

America since 1945 Paul Levine 2010-11-17 The period from 1945 to the present day may not constitute an American century, but it can be seen as the American Moment: the time when, for good or ill, the United States became the predominant political, military, economic and cultural power in the world. This revised and updated new edition introduces the historic and tumultuous developments in American politics, foreign policy, society and culture during this period. It includes coverage of key recent events, such as the: - 2008 election of Barack Obama - global recession - protracted war in Iraq and Afghanistan - rise of the internet - transformation of American Society and Culture - challenges of new immigration and multi-culturalism - changing global status of the US in the new millennium. Examining the American Moment in a global context, the authors emphasise the interaction between politics, society and culture. America Since 1945 encourages an awareness of how central currents in art, literature, film, theatre, intellectual history and media have developed alongside an understanding of political, economic and social change.

The Death-Bound-Subject Abdul R. JanMohamed 2005-03-31 During the 1940s, in response to the charge that his writing was filled with violence, Richard Wright replied that the manner came from the matter, that the "relationship of the American Negro to the American scene [was] essentially violent," and that he could deny neither the violence he had witnessed nor his own existence as a product of racial violence. Abdul R. JanMohamed provides extraordinary insight into Wright's position in this first study to explain the fundamental ideological and political functions

of the threat of lynching in Wright's work and thought. JanMohamed argues that Wright's oeuvre is a systematic and thorough investigation of what he calls the death-bound-subject, the subject who is formed from infancy onward by the imminent threat of death. He shows that with each successive work, Wright delved further into the question of how living under a constant menace of physical violence affected his protagonists and how they might "free" themselves by overcoming their fear of death and redeploying death as the ground for their struggle. Drawing on psychoanalytic, Marxist, and phenomenological analyses, and on Orlando Patterson's notion of social death, JanMohamed develops comprehensive, insightful, and original close readings of Wright's major publications: his short-story collection *Uncle Tom's Children*; his novels *Native Son*, *The Outsider*, *Savage Holiday*, and *The Long Dream*; and his autobiography *Black Boy/American Hunger*. *The Death-Bound-Subject* is a stunning reevaluation of the work of a major twentieth-century American writer, but it is also much more. In demonstrating how deeply the threat of death is involved in the formation of black subjectivity, JanMohamed develops a methodology for understanding the presence of the death-bound-subject in African American literature and culture from the earliest slave narratives forward.

New Developments in Analytical Psychology (Psychology Revivals) Michael Fordham 2013-10-31 Originally published in 1957, *New Developments in Analytical Psychology* built on the work of C.G. Jung. Jung's researches into the unconscious had led him to study the history of religion and the hitherto little understood psychology of alchemy; they had directed him away from child psychology and also, in later years, away from clinical analysis as well. Nonetheless his discoveries and theories have essential relevance in both these spheres. All the papers in this volume complement and amplify Jung's work. The author made a special study of child analysis and ego development and here publishes his conclusions in a series of papers. The studies of children led to developments in analytic techniques which are worked out in a longer essay on the

transference, to the understanding of which analytical psychology has a unique contribution; they have also stimulated a reassessment of the relation between the concept of archetypes and modern theories of heredity, instinct, neuro-physiology, and evolution, in which there had been much misunderstanding at the time. Michael Fordham was the last of the founders of a movement in psychoanalysis, and pioneered the Jungian analysis of children. This significant, early work can now be read and enjoyed in its historical context.

Congressional Record United States. Congress 1969

Black Culture and the New Deal Lauren Rebecca Sklaroff 2009-12-01 In the 1930s, the Roosevelt administration--unwilling to antagonize a powerful southern congressional bloc--refused to endorse legislation that openly sought to improve political, economic, and social conditions for African Americans. Instead, as historian Lauren Rebecca Sklaroff shows, the administration recognized and celebrated African Americans by offering federal support to notable black intellectuals, celebrities, and artists. Sklaroff illustrates how programs within the Federal Arts Projects and several war agencies gave voice to such notable African Americans as Lena Horne, Joe Louis, Duke Ellington, and Richard Wright, as well as lesser-known figures. She argues that these New Deal programs represent a key moment in the history of American race relations, as the cultural arena provided black men and women with unique employment opportunities and new outlets for political expression. Equally important, she contends that these cultural programs were not merely an attempt to appease a black constituency but were also part of the New Deal's larger goal of promoting a multiracial nation. Yet, while federal projects ushered in creativity and unprecedented possibilities, they were also subject to censorship, bigotry, and political machinations. With numerous illustrations, *Black Culture and the New Deal* offers a fresh perspective on the New Deal's racial progressivism and provides a new framework for understanding black culture and politics in the Roosevelt era.

The Dream of Rebirth Magnus Ljunggren 1982

Dreams C.G. Jung 2014-12-18 Author, psychiatrist and scholar, painter, world traveler, and above all visionary dreamer, Carl Jung was one of the great figures of the twentieth century. A comprehensive compilation of his work on dreams, this popular book is without parallel. Skilfully weaving a narrative that encompasses all of his major themes - mysticism, religion, culture and symbolism - Jung brings a wealth of allusion to the collection. He identifies such issues as the filmic quality of some dreams, and the differences between 'personal dreams' - dreams that exist on the individual level - and 'big dreams' - dreams that we all experience, that come from the collective unconscious. *Dreams* provides the perfect introduction to his concepts to those unfamiliar with Jung's work. Perfectly illuminating his user-friendly approach to life, *Dreams* is the ideal addition to any Jung collection.

Rebirth: Young Master's Resurgence Yan RuoYouYa 2020-05-22 Many people spent their fortune on him. They only wanted to have a chance at success, but very few people truly possessed him. Under the surface, he was just a plaything in the hands of a bunch of young masters. A meticulously calculated conspiracy had taken away his young, short life. His life had been reversed, and he hadn't been willing to play with the things he had played in the past. He wanted to fight back, so he had less power to conquer. On the night of his return, he sent out the

reincarnated Feng Xuan in front of his eyes. The world was famous, and he was like a poppy that bloomed in the wind. He did not want to kill anyone, but carried a fatal poison with him. "Are you a virgin?" Looking at the soul-reaping phoenix eyes, the lightning that never played at places suddenly rose up. "Do you want to deal with it?" "Ha ha..." Feng Xuan's quick and agile response had amused all of the people in the private room. His usual playfulness had also attracted the attention of the young masters, but tonight, he was like a thunderbolt in the sky. This was no ordinary encounter; it was destined to last a lifetime. After Feng Xuan was reborn, he would change the fate of the plaything, with less power to counterattack! [Space-time background is pure fiction. Please do not enter this seat.]

Poetic Resurrection Sina A. Nitzsche 2020-09-30 While many Americans dismissed the borough of The Bronx in the late 1970s through the belief that »The Bronx is burning,« this study challenges that assumption. As the first explicit study on The Bronx in American popular culture, this book shows how a wide variety of cultural representations engaged in a complex dialogue on its past, present, and future. Sina A. Nitzsche argues that popular culture ushered in the poetic resurrection of The Bronx, an artistic and imaginative rebirth, that preceded, promoted, and facilitated the spatial revival of the borough.

Narrative Bodies D. Punday 2003-06-13 Although the body has recently emerged throughout the humanities and social sciences as an object revealing the power and limits of representation, the study of narrative has almost entirely ignored human corporeality. As this book shows, attention to the body raises uncomfortable questions about the historicity of basic narrative concepts like character, plot, and narration - questions that critics would often prefer to ignore. Daniel Punday argues that narrative itself is a concept constructed by modern-day critics based on assumptions about identity, desire, movement and place that depend on modern ways of thinking about corporeality.
