The Cambridge Companion to American Literature and the Environment Sarah Ensor 2022-02-28 This Companion offers a capacious overview of American environmental literature and criticism. Tracing environmental literatures from the gates of the Manzanar War Relocation Camp in California to the island of St. Croix, from the notebooks of eighteenth-century naturalists to the practices of contemporary activists, this book offers readers a broad, multimedia definition of 'literature', a transnational, settler colonial comprehension of America, and a more-than-green definition of 'environment'. Demonstrating links between ecocriticism and such fields as Black feminism, food studies, decolonial activism, Latinx studies, Indigenous studies, queer theory, and carceral studies, the volume reveals the persistent relevance of literary methods within the increasingly interdisciplinary field of Environmental Humanities, while also modeling practices of literary reading shaped by this interdisciplinary turn. The result is a volume that will prove indispensable both to students seeking an overview of American environmental literature/criticism and to established scholars seeking new approaches to the field.

With contributions from major figures in literary disability studies, *The Cambridge Companion to Literature and Disability* covers a wide range of impairments, including cognitive difference, neurobehavioral conditions, and mental and chronic illnesses. This book shows how disability demands innovation in literary form and aesthetics, challenges the notion of a human 'norm' in the writing of character, and redraws the ways in which writing makes meaning of the broad spectrum of humanity. The Cambridge Companion to European Modernism Pericles Lewis 2011-09-08 Modernism arose in a period of accelerating globalization in the late nineteenth century. Modernist writers and artists, while often loyal to their country in times of war, aimed to rise above the national and ideological conflicts of the early twentieth century in service to a cosmopolitan ideal. This Companion explores the international aspects of literary modernism by mapping the history of the movement across Europe and within each country. The essays place the various literary traditions within a social and historical context and set out recent critical debates. Particular attention is given to the urban centers in which modernism developed - from Dublin to Zürich, Barcelona to Warsaw - and to the movements of modernists across national borders. A broad, accessible account of European modernism, this Companion explores what this cosmopolitan movement can teach us about life as a citizen of Europe and of the world.
