The main characters of Maurizio Agostini's books are two 'accidental detectives': Marcello, an accountant without any notable qualities, and Francesca, a very feminine transgender person. They meet Eleonora, a distant descendant of the great Guglielmo, while she is investigating the last invention of Marconi: the Death Ray, a secret weapon that destroys weapons. Mussolini was convinced till his end that, if Marconi hadn't died, the war would have ended very differently. During their investigations, our protagonists encounter international intrigues, scientific mysteries, unbelievable accidents with 'zero probability' and discover the true Marconi, who was very different from his official image. And... they also remain involved in an intriguing 'menage a trois'. In the end, they succeed in discovering the 'musical secret' of the Death Ray, at present hidden in the most impenetrable archive in the world.

The Great University Gamble Andrew McGettigan 2013-04-09 In 2010 the UK government proposed huge cuts and market-driven reforms for Universities. The proposals provoked widespread opposition in the form of street protests, occupations, and online campaigns. As the dust settles, Andrew McGettigan surveys the emerging brave new world of Higher Education. Displaying a stunning grasp of the policy details, he looks at the long term impact of the changes, which have been obscured by the focus on tuition fee increases. What will be the role of universities within society? How will they be funded? What kind of experiences will they offer students? Written in a clear and engaging style, The Great University Gamble outlines the architecture of the new policy regime, which many find difficult to grasp. It is an urgent warning that our Universities are being transformed from institutions of real learning to profit-driven degree factories.
