Troll Johanna Sinisalo 2007-12-01 This internationally acclaimed winner of the Finlandia Award is “a brilliant and dark parable about the fluid boundaries between human and animal” (The Boston Globe). Angel, a young photographer, comes home from a night of carousing to

find a group of drunken teenagers in the courtyard of his apartment building, taunting a wounded, helpless young troll. He takes it in, not suspecting the dramatic consequences of this decision. What does one do with a troll in the city? As the troll's presence influences Angel's life in ways he could never have predicted, it becomes clear that the creature is the familiar of man's most forbidden feelings. A novel of sparkling originality, *Troll* is a wry, beguiling story of nature and man's relationship to wild things, and of the dark power of the wildness in ourselves. "[An] imaginative and engaging novel of urban fantasy . . . The stuff of ancient legend shadows with rather unnerving precision the course of unloosed postmodern desire." —Chris Lehmann, *The Washington Post Book World*

Secret Son Laila Lalami 2010-02-04 When a young man is given the chance to rewrite his future, he doesn't realize the price he will pay for giving up his past... Casablanca's stinking alleys are the only home that nineteen-year-old Youssef El-Mekki has ever known. Raised by his mother in a one-room home, the film stars flickering on the local cinema's screen offer the only glimmer of hope to his frustrated dreams of escape. Until, that is, the father he thought dead turns out to be very much alive. A high profile businessman with wealth to burn, Nabil is disenchanted with his daughter and eager to take in the boy he never knew. Soon Youssef is installed in his penthouse and sampling the gold-plated luxuries enjoyed by Casablanca's elite. But as he leaves the slums of his childhood behind him, he comes up against a starkly un-glittering reality...

When I Forgot Elina Hirvonen 2009 A Finlandia Prize-winning work finds Anna en route to

visit her institutionalized brother and experiencing a moment of recollection so arresting that it shatters her world, a repressed memory of horrific psychological relevance that forces her to reevaluate her understanding of hope and survival in the face of grim modern-world prospects. Original. A first novel.

Babylon Yasmina Reza 2018-08-07 Winner of the Prix Renaudot Shortlisted for the Prix Goncourt Elisabeth is a woman whose curiosity and passion far exceed the borders of her quiet middle-class life. She befriends a neighbor, organizes a small dinner party. And then, quite suddenly, finds herself embarked with him on an adventure that is one part vaudeville and one part high tragedy. A quiet novel of manners turns into a police procedural thriller. Her motivations for risking everything she has are never transparent. In a world where matters of life and death are nearly always transported to a clinical setting, whether it be a hospital or a courtroom, here each character must confront them unassisted. A truly original and masterful novel from one of the world's most inventive and daring artists.

The Hotel Neversink Adam O'Fallon Price 2019-08-06 "A gripping, atmospheric, heart-breaking, almost-ghost story. Not since Stephen King's *Overlook* has a hotel hiding a secret been brought to such vivid life." —Lydia Kiesling, author of *The Golden State* Thirty-one years after workers first broke ground, the magnificent Hotel Neversink in the Catskills finally opens to the public. Then a young boy disappears. This mysterious vanishing—and the ones that follow—will brand the lives of three generations. At the root of it all is Asher Sikorsky, the ambitious and ruthless patriarch whose purchase of the hotel in 1931 set a haunting legacy into motion. His daughter Jeanie sees the Hotel Neversink into its most lucrative era, but

also its darkest. Decades later, Asher's grandchildren grapple with the family's heritage in their own ways: Len fights to keep the failing, dilapidated hotel alive, and Alice sets out to finally uncover the murderer's identity. Told by an unforgettable chorus of Sikorsky family members—a matriarch, a hotel maid, a traveling comedian, the hotel detective, and many others—The Hotel Neversink is the gripping portrait of a Jewish family in the Catskills over the course of a century. With an unerring eye and with prose both comic and tragic, Adam O'Fallon-Price details one man's struggle for greatness, no matter the cost, and a long-held family secret that threatens to undo it all.

When I Forgot Janice Marriott 1999 Amy always did a good job of looking after her forgetful Grandad. She just let him do his own thing and kept one eye on him to check what he was up to. But one day while she was on the telephone, Grandad went missing. Suggested level: primary.

The First Tycoon T.J. Stiles 2009-04-21 NATIONAL BESTSELLER WINNER OF THE NATIONAL BOOK AWARD In this groundbreaking biography, T.J. Stiles tells the dramatic story of Cornelius "Commodore" Vanderbilt, the combative man and American icon who, through his genius and force of will, did more than perhaps any other individual to create modern capitalism. Meticulously researched and elegantly written, The First Tycoon describes an improbable life, from Vanderbilt's humble birth during the presidency of George Washington to his death as one of the richest men in American history. In between we see how the Commodore helped to launch the transportation revolution, propel the Gold Rush, reshape Manhattan, and invent the modern corporation. Epic in its scope and success, the

life of Vanderbilt is also the story of the rise of America itself.

Radiolabelled Molecules for Brain Imaging with PET and SPECT Peter Brust 2020-11-26  
Positron emission tomography (PET) and single-photon emission computed tomography (SPECT) are in vivo molecular imaging methods which are widely used in nuclear medicine for diagnosis and treatment follow-up of many major diseases. These methods use target-specific molecules as probes, which are labeled with radionuclides of short half-lives that are synthesized prior to the imaging studies. These probes are called radiopharmaceuticals. The use of PET and SPECT for brain imaging is of special significance since the brain controls all the body's functions by processing information from the whole body and the outside world. It is the source of thoughts, intelligence, memory, speech, creativity, emotion, sensory functions, motion control, and other important body functions. Protected by the skull and the blood-brain barrier, the brain is somehow a privileged organ with regard to nutrient supply, immune response, and accessibility for diagnostic and therapeutic measures. Invasive procedures are rather limited for the latter purposes. Therefore, noninvasive imaging with PET and SPECT has gained high importance for a great variety of brain diseases, including neurodegenerative diseases, motor dysfunctions, stroke, epilepsy, psychiatric diseases, and brain tumors. This Special Issue focuses on radiolabeled molecules that are used for these purposes, with special emphasis on neurodegenerative diseases and brain tumors.

Ninety-Nine Stories of God Joy Williams 2016-07-12 A New York Times Notable Book and a Best Book of the Year at Esquire, Seattle Times, Minnesota Star Tribune, Huffington Post, and Publishers Weekly. From "quite possibly America's best living writer of short stories"

(NPR), *Ninety-Nine Stories of God* finds Joy Williams reeling between the sublime and the surreal, knocking down the barriers between the workaday and the divine. Pulitzer Prize and National Book Award finalist Joy Williams has a one-of-a-kind gift for capturing both the absurdity and the darkness of everyday life. In *Ninety-Nine Stories of God*, she takes on one of mankind's most confounding preoccupations: the Supreme Being. This series of short, fictional vignettes explores our day-to-day interactions with an ever-elusive and arbitrary God. It's the Book of Common Prayer as seen through a looking glass—a powerfully vivid collection of seemingly random life moments. The figures that haunt these stories range from Kafka (talking to a fish) to the Aztecs, Tolstoy to Abraham and Sarah, O. J. Simpson to a pack of wolves. Most of Williams's characters, however, are like the rest of us: anonymous strivers and bumblers who brush up against God in the least expected places or go searching for Him when He's standing right there. The Lord shows up at a hot-dog-eating contest, a demolition derby, a formal gala, and a drugstore, where he's in line to get a shingles vaccination. At turns comic and yearning, lyric and aphoristic, *Ninety-Nine Stories of God* serves as a pure distillation of one of our great artists.

Miracle of Education Hannele Niemi 2016-11-25 "Finnish pupils' success in international student assessment tests and the characteristics of the Finnish educational system are the focus of interest all around in the world. The significance of Finnish educational policy and societal atmosphere are continuously discussed. This book provides explanations, answers and reflections to these questions. Over 30 expert authors have contributed to this book by bringing their own specific research-based points of view. The second edition of the book

introduces the new national curriculum for basic education that now provides guidelines for school-based curricula. Students' learning with engagement and schools as learning communities are core visions of the reform. The authors also reflect on the PISA 2012 results. The book gives an example on how to use PISA information for national improvements. In Finland, all evaluations are enhancement-led and this also includes PISA measurements. The book illustrates how teaching and learning of different subjects is realized in Finnish schools and describes the essential characteristics and methods of teaching, learning materials and research on these issues. The book provides important insight and reflections to international researchers, teachers, students, journalists and policy makers, who are interested in teaching and learning in Finnish schools. It shows the results of the systematic and persistent work that has been done on education and schooling in Finland. The main features of education in Finland are: Strong equity policy. Teachers as autonomous and reflective academic experts. Flexible educational structures and local responsibility for curriculum development. Evaluation for improvements, not for ranking. No national testing, no inspectorate. Research-based teacher education. Teachers' high competence in content knowledge and pedagogy. Trust in education and teachers."

Law and Justice in Literature, Film and Theater Karen-Margrethe Simonsen 2013-03-22 This volume is a Nordic contribution to research on law and humanities. It treats the legal culture of the Nordic countries through intensive analyses of canonical Nordic artworks. Law and justice have always been important issues in Nordic literature, film and theater from the Icelandic sagas through Ludvig Holberg and Henrik Ibsen to Lars Noréns theatre and Lars

von Trier's Dogme films of today. This book strives to answer two fundamental questions: Is there a special Nordic justice? And what does the legal and literary/aesthetic culture of the North mean for the concept of law and justice and for the understanding of the interdisciplinary exchange of law and humanities? The concept of law and literature as a research area was originally developed in countries of common law. This book investigates law and humanities from a different legal tradition, and contributes thus both to the discussion of the general and the comparative studies of law and humanities.

World Development Report 2014 World Bank 2013-10 The World Development Report 2014 examines how improving risk management can lead to larger gains in development and poverty reduction. It argues that improving risk management is crucial to reduce the negative impacts of shocks and hazards, but also to enable people to pursue new opportunities for growth and prosperity.

Northern Archaeology and Cosmology Vesa-Pekka Herva 2019-06-28 In its analysis of the archaeologies and histories of the northern fringe of Europe, this book provides a focus on animistic–shamanistic cosmologies and the associated human–environment relations from the Neolithic to modern times. The North has fascinated Europeans throughout history, as an enchanted world of natural and supernatural marvels: a land of light and dark, of northern lights and the midnight sun, of witches and magic and of riches ranging from amber to oil. Northern lands conflate fantasies and realities. Rich archaeological, historical, ethnographic

and folkloric materials combine in this book with cutting-edge theoretical perspectives drawn from relational ontologies and epistemologies, producing a fresh approach to the prehistory and history of a region that is pivotal to understanding Europe-wide processes, such as Neolithization and modernization. This book examines the mythical and actual northern worlds, with northern relational modes of perceiving and engaging with the world on the one hand and the 'place' of the North in European culture on the other. This book is an indispensable read for scholars of archaeology, anthropology, cultural studies and folklore in northern Europe, as well as researchers interested in how the North is intertwined with developments in the broader European and Eurasian world. It provides a deep-time understanding of globally topical issues and conflicting interests, as expressed by debates and controversies around Arctic resources, nature preservation and indigenous rights.

Nocturnes Kazuo Ishiguro 2009-05-07 \*Kazuo Ishiguro's new novel Klara and the Sun is now available\* In Nocturnes, Kazuo Ishiguro explores ideas of love, music and the passing of time. From the piazzas of Italy to the 'hush-hush floor' of an exclusive Hollywood Hotel, the characters we encounter range from young dreamers to cafe musicians to faded stars, all of them at some moment of reckoning. Gentle, intimate and witty, this quintet is marked by a haunting theme - the struggle to keep alive a sense of life's romance, even as one gets older, relationships founder and youthful hopes recede. 'Each of these stories is heartbreaking in its own way, but some have moments of great comedy, and they all require a level of attention that, typically, Ishiguro's writing rewards.' Observer '[They] come up on you quietly, but then haunt you for days . These little pieces could only be the work of a great

composer.' Evening Standard 'A fine and moving collection of stories, displaying his unique combination of the sad, the stoic and the consoling. It's about failure, but it dignifies failure, and with it, the human condition.' Margaret Drabble, Guardian

The Brothers Seven Aleksis Kivi 2017-01-16 *Seitsemän veljestä* (The Brothers Seven), the 1870 Finnish novel by Aleksis Kivi (1834-1872), is one of the most (in)famously unknown classics of world literature—unknown not only because so few people in the world can read Finnish, but also because the novel is so incredibly difficult to translate, the Mount Everest of translating from Finnish. It is difficult to translate not only because it blends a saturation in

Homer, Shakespeare, Dante, Cervantes, and the Bible with a brilliantly stylized form of local dialect, but because it is wild, grotesque, carnivalistic, and laugh-out-loud funny on every page. It has been translated 58 times into 34 languages—but somehow the translations always seem to fall short of their flamboyant original. Douglas Robinson's new translation is a bold attempt to remedy that. He aims to make Kivi as rhythmic, as alliterative, as brash, as grotesque, and as funny in English as he is in Finnish. Since Kivi deliberately used an archaic Finnish, but used it playfully—and since Kivi was steeped in Shakespeare, to the point of memorizing whole plays—Robinson translates him into a playful Shakespearean register. As he notes in his Preface, this makes the translation a bit difficult to read—but the original is difficult for Finns to read as well, and the Finnish readers who love Kivi (and that is most of them) read him with pleasure despite the words they don't know, because his prose is so intensely alive.

The Translator- Centered Multidisciplinary Construction Lin Zhu 2012 This book embraces the epistemological and methodological issues of theoretical construction in the field of Translation Studies from a historical and global perspective. The theoretical stances are explained in detail through a systemic inquiry into the constructive aspects of theoretical innovation of the American translation theorist Douglas Robinson. In order to renew and promote theoretical thinking in the field of Translation Studies, this book aims to reflect on existing theoretical problems in translation, trace the translation theorist's innovative and constructive ways of thinking about translation theory, and explore productive philosophical and theoretical resources of translation studies. This book will not only be helpful to a further

and full understanding of Robinson's thoughts on translation, but also offers a rethinking of how to advance Translation Studies epistemologically and methodologically.

Northern Lights B. J. Epstein 2009 This volume is a collection of essays based on papers given at the Nordic Translation Conference, which took place in London in March 2008. The purpose of the collection is twofold. First, it serves to place the Nordic languages firmly into the field of translation studies, where hitherto little research has focused on the Nordic region; the essays include many Nordic-specific studies and ideas. Second, the book presents research and conclusions which are relevant to translation studies in all languages and cultures. Therefore this volume, which covers a wide range of Nordic languages and both literary and non-literary topics, is unambiguously pertinent to the Nordic countries while also being universally valuable.

Cassie and Lia are best friends, and united in their quest to be thin. But when Cassie is found dead in a motel room, Lia must question whether she continues to lose weight, or choose life instead.

Religion, Education and Human Rights Anders Sjöborg 2017-04-13 This book examines the interconnectedness between religion, education, and human rights from an international perspective using an interdisciplinary approach. It deals with compulsory or secondary school education in different contexts, as well as higher education, and has as its common theme the multiplicity of secularisms in different national contexts. Presenting rich cases, the contributions include empirical and theoretical perspectives on how international trends of

migration and cultural diversity, as well as judicialization of social and political processes, and rapid religious and social changes come into play as societies find their way in an increasingly diverse context. The book contains chapters that present case studies on how confessional or non-confessional Religious Education (RE) at schools in different societal contexts is related to the concept of universal human rights. It presents cases studies that display an intriguing array of problems that point to the role of religion in the public sphere and show that historical contexts play important and different roles. Other contributions deal with higher education, where one questions how human rights as a concept and as discourse is taught and examines whether withdrawing from certain clinical training when in university education to become a medical doctor or a midwife on the grounds of conscientious objections can be claimed as a human right. From a judicial point of view one chapter discerns the construction of the concept of religion in the Swedish Education Act, in relation to the Swedish constitution as well European legislation. Finally, an empirical study comparing data from young people in six different countries in three continents investigates factors that explain attitudes towards human rights.

Everything is Nice Jane Bowles 2012 This is the definitive edition of Jane Bowles' stories, with a biographical note and photos. Jane Bowles wrote very little: just one perfect novel, *Two Serious Ladies* , a play, *In the Summer House* , and the dozen or so stories collected in this volume. But it was enough to establish a reputation as one of the twentieth century's most original fiction writers. From the title story where an American woman is led to a house

in 'blue moslem town' by a veiled woman with porcupines in her basket, to Camp Cataract, a Colorado-based tour de force of middle-class claustrophobia and dread, *Everything is Nice* takes you into an edgy and exhilarating, tragicomic world.

Handbook on Sustainability Transition and Sustainable Peace Hans Günter Brauch 2016-08-10 In this book 60 authors from many disciplines and from 18 countries on five continents examine in ten parts: Moving towards Sustainability Transition; Aiming at Sustainable Peace; Meeting Challenges of the 21st Century: Demographic Imbalances, Temperature Rise and the Climate–Conflict Nexus; Initiating Research on Global Environmental Change, Limits to Growth, Decoupling of Growth and Resource Needs; Developing Theoretical Approaches on Sustainability and Transitions; Analysing National Debates on Sustainability in North America; Preparing Transitions towards a Sustainable Economy and Society, Production and Consumption and Urbanization; Examining Sustainability Transitions in the Water, Food and Health Sectors from Latin American and European Perspectives; Preparing Sustainability Transitions in the Energy Sector; and Relying on Transnational, International, Regional and National Governance for Strategies and Policies Towards Sustainability Transition. This book is based on workshops held in Mexico (2012) and in the US (2013), on a winter school at Chulalongkorn University, Thailand (2013), and on commissioned chapters. The workshop in Mexico and the publication were supported by two grants by the German Foundation for Peace Research (DSF). All texts in this book were peer-reviewed by scholars from all parts of the world.

Blood Meridian Cormac McCarthy 2010-08-11 25th ANNIVERSARY EDITION • An epic

novel of the violence and depravity that attended America's westward expansion, *Blood Meridian* brilliantly subverts the conventions of the Western novel and the mythology of the Wild West—from the bestselling, Pulitzer Prize–winning author of *The Road* Based on historical events that took place on the Texas-Mexico border in the 1850s, it traces the fortunes of the Kid, a fourteen-year-old Tennessean who stumbles into the nightmarish world where Indians are being murdered and the market for their scalps is thriving.

The Zürau Aphorisms Franz Kafka 2011-02-28 Franz Kafka spent eight months at his sister's house in Zürau between September 1917 and April 1918, enduring the onset of tuberculosis. Illness paradoxically set him free to write, in a series of philosophical fragments, his settling of accounts with life, marriage, his family, guilt and man's condition. These aphorisms have appeared with minor revisions in various posthumous works since his death in 1924. By chance, Roberto Calasso rediscovered Kafka's two original notebooks in Oxford's Bodleian Library. The notebooks, freshly translated and laid out as Kafka intended, are a distillation of Kafka at his most powerful and enigmatic. This lost jewel provides the reader with a fresh perspective on the work of a genius.

Quantile Regression Roger Koenker 2005-05-05 Quantile regression is gradually emerging as a unified statistical methodology for estimating models of conditional quantile functions. By complementing the exclusive focus of classical least squares regression on the conditional mean, quantile regression offers a systematic strategy for examining how covariates influence the location, scale and shape of the entire response distribution. This

monograph is the first comprehensive treatment of the subject, encompassing models that are linear and nonlinear, parametric and nonparametric. The author has devoted more than 25 years of research to this topic. The methods in the analysis are illustrated with a variety of applications from economics, biology, ecology and finance. The treatment will find its core audiences in econometrics, statistics, and applied mathematics in addition to the disciplines cited above.

Corpus Linguistics for Translation and Contrastive Studies Mikhail Mikhailov 2016-05-20  
Corpus Linguistics for Translation and Contrastive Studies provides a clear and practical introduction to using corpora in these fields. Giving special attention to parallel corpora, which are collections of texts in two or more languages, and demonstrating the potential benefits for multilingual corpus linguistics research to both translators and researchers, this book: explores the different types of parallel corpora available, and shows how to use basic and advanced search procedures to analyse them; explains how to compile a parallel corpus, and discusses their uses for translation purposes and to research linguistic phenomena across languages; demonstrates the use of corpus extracts across a wide range of texts, including dictionaries, novels by authors including Jane Austen and Mikhail Bulgakov, and newspapers such as The Sunday Times; is illustrated with case studies from a range of languages including Finnish, Russian, English and French. Written by two experienced researchers and practitioners, Corpus Linguistics for Translation and Contrastive Studies is essential reading for postgraduate students and researchers working

within the area of translation and contrastive studies.

About Trees Katie Holten 2015 About Trees considers our relationship with language, landscape, perception, and memory in the Anthropocene. The book includes texts and artwork by a stellar line up of contributors including Jorge Luis Borges, Andrea Bowers, Ursula K. Le Guin, Ada Lovelace and dozens of others. Holten was artist in residence at Buro BDP. While working on the book she created an alphabet and used it to make a new typeface called Trees. She also made a series of limited edition offset prints based on her Tree Drawings.

Migrants and Literature in Finland and Sweden Satu Gröndahl 2018-10-11 Migrants and Literature in Finland and Sweden presents new comparative perspectives on transnational literary studies. This collection provides a contribution to the production of new narratives of the nation. The focus of the contributions is contemporary fiction relating to experiences of migration. When people are in motion, it changes nations, cultures and peoples. The volume explores the ways in which transcultural connections have affected the national self-understanding in the Swedish and Finnish context. It also presents comparative aspects on the reception of literary works and explores the intersectional perspectives of identities including class, gender, ethnicity, "race" and disability. This volume discusses multicultural writing, emerging modes of writing and generic innovations. Further, it also demonstrates the complexity of grouping literatures according to nation and ethnicity. This collection is of particular interest to students and scholars in literary and Nordic studies as well as

transnational and migration studies.

Nodes of Contemporary Finnish Literature Leena Kirstinä 2019-03-12 This book examines phenomena from Finnish and Finnish-Swedish literature written in the years between the 1980s and the first decade of the new millennium. Its objective is to study this interesting era of literary history in Finland and to sketch some possible directions for future development by identifying literary turning points which have already occurred. The nine articles found in the anthology are written by some of the most prominent literary scholars in Finland. These distinguished authors examine such varied topics as postmodern allegories, feminism, historiography, autobiographic writing, modern subjects in postmodern conditions, metalyrical poetry, realistic involvement in the novel, successful children's literature, and the intertextuality of Sofi Oksanen's famous novel *Purge*.

They are organized in the following topical sections: information literacy in different contexts of everyday life; information literacy, active citizenship and community engagement; information literacy, health and well-being; workplace information literacy and employability; information literacy research and

information literacy in theoretical context; information seeking and information behavior; information literacy for different groups in different cultures and countries; information literacy for different groups in different cultures and countries; information literacy instruction; information literacy and aspects of education; data literacy and research data management; copyright literacy; information literacy and lifelong learning.

Storytelling and Ethics Hanna Meretoja 2017-09-18 In recent years there has been a huge amount of both popular and academic interest in storytelling as something that is an essential part of not only literature and art but also our everyday lives as well as our dreams, fantasies, aspirations, historical self-understanding, and political actions. The question of the ethics of storytelling always, inevitably, lurks behind these discussions, though most frequently it remains implicit rather than explicit. This volume explores the ethical potential and risks of storytelling from an interdisciplinary perspective. It stages a dialogue between contemporary literature and visual arts across media (film, photography, performative arts), interdisciplinary theoretical perspectives (debates in narrative studies, trauma studies, cultural memory studies, ethical criticism), and history (traumatic histories of violence, cultural history). The collection analyses ethical issues involved in different strategies employed in literature and art to narrate experiences that resist telling and imagining, such as traumatic historical events, including war and political conflicts. The chapters explore the multiple ways in which the ethics of storytelling relates to the contemporary arts as they work with, draw on, and contribute to historical imagination. The book foregrounds the connection between remembering and imagining and explores the ambiguous role of narrative in the

configuration of selves, communities, and the relation to the non-human. While discussing the ethical aspects of storytelling, it also reflects on the relevance of artistic storytelling practices for our understanding of ethics. Making an original contribution to interdisciplinary narrative studies and narrative ethics, this book both articulates a complex understanding of how artistic storytelling practices enable critical distance from culturally dominant narrative practices, and analyzes the limitations and potential pitfalls of storytelling.

Local Electricity Markets Tiago Pinto 2021-07-03 Local Electricity Markets introduces the fundamental characteristics, needs, and constraints shaping the design and implementation of local electricity markets. It addresses current proposed local market models and lessons from their limited practical implementation. The work discusses relevant decision and informatics tools considered important in the implementation of local electricity markets. It also includes a review on management and trading platforms, including commercially available tools. Aspects of local electricity market infrastructure are identified and discussed, including physical and software infrastructure. It discusses the current regulatory frameworks available for local electricity market development internationally. The work concludes with a discussion of barriers and opportunities for local electricity markets in the future. Delineates key components shaping the design and implementation of local electricity market structure Provides a coherent view on the enabling infrastructures and technologies that underpin local market expansion Explores the current regulatory environment for local electricity markets drawn from a global panel of contributors Exposes future paths toward widespread implementation of local electricity markets using an empirical review of barriers and

opportunities Reviews relevant local electricity market case studies, pilots and demonstrators already deployed and under implementation
